### DR. KNIGHTS OF WHITTIER IS HONORED

Directors and Officers Are  
Elected Following Re-  
port of This Morning  
REDLANDS GETS MEET

World Peace and 18th  
Amendment Given Sup-  
port By Those Present

ELECTING officers and directors  
for the ensuing year, choosing  
the next meeting place for the  
convention, adopting resolutions  
on several important subjects, and  
hearing about home and foreign  
missions, the 38th session of the  
Southern California Baptist con-  
vention was drawing to a close  
at noon today, with a program on  
missions scheduled for the after-  
noon session, and a great closing  
service featuring an address by  
Dr. John S. Smith, of Los Angeles,  
as the climax of the entire con-  
vention at the evening session to-  
night.

At the business session this  
morning nominations made by the  
nominating committee, headed by  
F. A. Hastings, of Glendale, were  
accepted and the clerk of the con-  
vention, the Rev. William C. Ap-  
pleberry, of Compton, was in-  
structed to cast a unanimous vote  
for the ticket as presented. A ris-  
ing vote of appreciation for the  
services rendered by J. P. Elwell,  
Los Angeles publisher, who has  
been president of the convention  
during the current year, was ex-  
tended to the leader of the con-  
vention.

Officers Chosen  
Officers elected are as follows:  
President, Dr. George Knights, pas-  
tor of the First church at Whittier;  
1st vice president, George Cor-  
ner, business manager of the  
University of Redlands; 2nd vice  
president, Mrs. O. T. Ellis, of  
Long Beach, president of the Wo-  
men's Baptist Mission society for  
Southern California; clerk, the  
Rev. William C. Appleberry, pastor  
of the Baptist church at Compton;  
assistant clerk, the Rev. Hor-  
ace Blood, pastor of the Cotton  
church. The treasurer, who is to  
be selected by the board of di-  
rectors, is expected to be J. M.  
Davison, present incumbent.

Comment was heard about the  
scene of the convention today on  
the fact that for the first time in  
the history of the Southern Cali-  
fornia Baptist convention, a woman  
had been placed in line for presi-  
dency of the body. This is ex-  
pected to be the result of nam-  
ing Mrs. O. T. Ellis as 2nd vice  
president, it was intimated.

Directors selected by the con-  
vention were I. John S. Smith, pas-  
tor of the Temple Baptist church,  
Los Angeles; J. F. Elwell, Los  
Angeles; J. G. Allen, Santa Ana;

#### CAMP KEARNEY SITE STRESSED BEFORE BOARD

Rear Admiral Jehu Claims  
It Is Best Site That  
Navy Can Choose

WASHINGTON, May 16.—(UP)—  
Strategic advantages of lo-  
cating the navy's new \$5,000-  
000 dirigible base at Camp Kear-  
ney, Calif., were stressed again  
today as Rear Admiral Jehu Chase  
of the navy general board con-  
cluded his testimony before the  
house naval affairs committee.

Chase said Camp Kearney was  
especially advantageous because of  
its proximity to the canal zone,  
a point of vital importance in time  
of war.

Chairman Britten was told by  
Chase that a base situated even  
further south than San Diego,  
were that not the southernmost ex-  
tremity of the southwestern United  
States, would prove even more  
valuable in case of a Pacific war.

Chase again cited the importance  
of Hawaii as a naval base and in-  
dicated his belief dirigibles based  
at Camp Kearney would be in al-  
most perfect position for use  
either in Hawaii or the Canal  
Zone.

Representative McClintic, Demo-  
crat, Oklahoma, invited members  
to visit Oklahoma City and inspect  
a prospective site there.

#### DOGS OF COMEDIAN CAUSE COMPLAINTS

LOS ANGELES, May 16.—(UP)—  
Loving a dog—often acclaimed  
as a virtue—is a weakness with  
Harold Lloyd, film comedian.

He kept 55 on his property in  
a Westwood suburb. That was  
54 too many for neighbors whose  
weakness was for sleep. They  
complained to the city prosecutor,  
Lloyd Nix.

Nix, who likes dogs and sleep  
too, appealed to the comedian to  
do something about the nocturnal  
choral practice of the actor's great  
Danes.

Lloyd answered that he had  
given away 40 of the dogs, valued  
at \$15,000, and now is equipping  
each dog with a sound proof ken-  
nel and a night latch.

#### 2 GUNMEN SOUGHT FOR JEWEL ROBBERY

LOS ANGELES, May 16.—(UP)—  
Two men believed by police to  
be Fred Burke and August Wink-  
ler, Chicago gunmen, were sought  
by police here today after the  
pair robbed an exclusive apart-  
ment of \$2000 in jewelry here last  
night.

The victims were Mr. and Mrs.  
J. P. Herr and their guests, Mrs.  
Hazel Judd and Madeline Murphy.  
The robbery is the sixth attrib-  
uted to Winkler and Burke in re-  
cent weeks here.

The Herts and their guests  
identified pictures of Burke and  
Winkler as the men who rang the  
apartment bell and flashed guns  
when the door was opened.

#### MRS. J. TUBBS ANSWERS CALL THIS MORNING

Wife of Former Mayor of  
Santa Ana Dies Fol-  
lowing Operation

THIS COMMUNITY was shocked  
today by the death of Mrs.  
J. W. Tubbs, wife of a former  
mayor, who passed away this  
morning at St. Joseph's hospital,  
following a major operation per-  
formed yesterday morning.

Although having the appearance  
of enjoying perfect health, Mrs.  
Tubbs had been for a long time  
a sufferer from an ailment from  
which relief was thought to be  
obtainable only by an operation.

Mrs. Tubbs is survived by her  
husband, a daughter, Mrs. Gwen-  
dolin McKittick, of Los An-  
geles, and one brother and one  
sister, Neal Brock, Santa Ana,  
and Mrs. Corinne Wade, Los An-  
geles.

Mrs. Tubbs came with her par-  
ents to Santa Ana from Illinois in  
1884 and par-ved virtually all of  
her life in this city, being 48 years  
of age at the time of her death.  
She went through the grade and  
high schools of Santa Ana and  
was married in 1904 to Mr. Tubbs,  
in this city. She had been prom-  
inent for many years in social  
circles here and at the time of  
her death was a member of the  
Ebell club.

Mrs. Tubbs was the daughter  
of the late D. T. Brock, who served  
the county as clerk from Janu-  
ary 1, 1893, to January 1, 1899,  
and who was prominent in political  
circles for many years.

#### 20 CAFE PATRONS ROBBED BY BANDITS

SAN FRANCISCO, May 16.—  
(UP)—Gunmen lined up 20 men  
and women in a studio club on  
Turk street early today, beat and  
robbed two women, fired at a  
prominent importer and then  
escaped with considerable loot.

Two men entered the place at  
midnight and ordered food. When  
the manager became suspicious of  
them they drew their revolvers  
and herded the guests, many of  
them socially prominent, into a  
guest room.

Then while one of them kept  
the guests covered with his gun  
the other made a search of the  
premises for valuables.

When Miss Jean Carroll, one of  
the proprietors, protested, one of  
the men struck her on the jaw  
with the butt of his gun and  
knocked her down.

#### 90 INJURED AS OFFICERS FIRE ON INDIA MOB

Rioters Clash With Police  
in Attempt to Prevent  
Liquor Removal

CALCUTTA, India, May 16.—  
(UP)—Police fired on a mob of  
Independence demonstrators at  
Mymensingh, injuring 90 persons,  
delayed advices received today said.  
The rioters clashed with police  
who attempted to prevent removal  
of liquor for government depots.

The riot grew out of the efforts of  
followers of Mahatma Gandhi to  
halt the sale of liquor.

Mymensingh is in Bengal and  
capital of Mymensingh district.  
Three of those injured were in a  
serious condition. The volunteers  
had surrounded the liquor depots  
with strong pickets and stoned po-  
lice when they tried to disperse the  
pickets. Police then fired.

Arrest Woman

Great Britain's intention to dis-  
regard sentiment in suppressing the  
Indian industry movement was  
shown today when Mrs. Kamala-  
devi Chattopadhyaya, sister-in-law  
of Mrs. Sarojini Naidu, independ-  
ence leader, was arrested on a  
charge of violating the salt laws.

Mrs. Chattopadhyaya was tried  
immediately, convicted and sen-  
tenced to nine months and two  
weeks simple imprisonment.

Mrs. Chattopadhyaya was the first  
woman arrested in Bombay, since  
Mahatma Gandhi instituted his  
passive resistance campaign against  
British rule two months ago. She  
was arrested less than 24 hours  
after she was chosen to lead a raid  
of 2000 independence seekers on the  
Wadala salt depot, near here Sun-  
day.

By the arrest, the British gov-

#### VOTERS OF OREGON CAST BALLOTS TODAY

PORTLAND, Ore., May 16.—  
(UP)—The electorate of Oregon  
will go to the polls today to cast  
their ballot in what has proved  
one of the quietest primaries ever  
held here.

Past experience proves that of  
the total of 284,241 Republicans  
and 103,295 Democrats eligible to  
vote their party's tickets probably  
not more than 115,000 Republicans  
and 35,000 Democrats will go to  
the polls.

Among the Republicans reports  
from over the state place Govern-  
or Norblad and Harry L. Corbett  
in the lead in the gubernatorial  
race, although George Joseph,  
Portland attorney, is close behind.

Ed Baily and George Wilbur ap-  
pear the strongest candidates for  
the Democratic nomination for  
governor.

#### Newport 2200 With Laguna Beach Close

Anaheim Census 10,997,  
Fullerton 10,860—San  
Jacinto Gains

RECHECKS of enumeration  
made since announcement of  
preliminary figures by Stanley  
Goode, census supervisor for Or-  
ange and Riverside counties, added  
substantially to the population count  
in Santa Ana, Anaheim and Full-  
erton, it was revealed today with re-  
lease by Goode of complete figures  
for the three cities.

The new figures, which now be-  
come the permanent government  
official population record for the  
next ten years, disclosed that Ana-  
heim displaced Fullerton as the  
second largest city in the county.  
Fullerton also must bow to Newport  
Beach as the Orange county city  
showing the largest percentage of  
gain during the ten years interven-  
ing between the former and last  
count of noses by the government.

Santa Ana's official figures now  
are 30,332, an increase of 166 over  
the figures quoted in the prelimi-  
nary report. The percentage gain for  
the 10 year period was 55.8.  
Anaheim added 130 persons by the  
recheck, the population for that city  
being 10,997. The gain was 99 per  
cent.

Because of close co-operation  
given by the chamber of commerce  
during the period of enumeration,  
Fullerton found only 49 persons who  
had been missed. The city is credit-  
ed now with a population of 10,860,  
137 less than Anaheim's total. Full-  
erton's ten-year gain was 145.9  
per cent, the high for the county.

Anaheim added 130 persons by the  
recheck, the population for that city  
being 10,997. The gain was 99 per  
cent.

The population count at Laguna  
also was released today, the figures  
being 1960. Laguna was not incor-  
porated then, but the population  
was estimated then at 700.

Figures were released today for  
San Jacinto, in Riverside county.  
The city has a population of 1239,  
a gain of 76.3 per cent.

#### SOLDIERS PREPARE MORO REBEL ATTACK

MANILA, May 16.—(UP)—Con-  
stantly forces were preparing  
a mass attack at Taguaya near  
Lake Lanao where Sultan Mamur  
and his rebellious Moro followers  
were entrenched, according to dis-  
patches received here today.

Both sides were fully equipped  
and ready for action.  
Moro Umparo, former rebel,  
agreed to guide the constabulary  
against Mamur with the agree-  
ment that he be granted immuni-  
ty.

General Charles Nathors, con-  
stabulary commandant, was re-  
ported to have assumed personal  
command of the attack at Tur-  
gaya.

### OVERTURES FOR HARMONY IN PALO ALTO D. A. R. TURMOIL ARE MADE BY MANY LEADERS

STANFORD UNIVERSITY,  
PALO ALTO, Calif., May  
16.—(UP)—Leaders of con-  
flicting factions made overtures  
for harmony today to quiet the  
turmoil occasioned by resigna-  
tion of 12 women from the Palo  
Alto chapter of the Daughters  
of the American Revolution, and  
the editorial in the Stanford  
Daily attacking "militarism at  
Stanford."

Mrs. Theodore J. Hoover, sis-  
ter-in-law of President Hoover,  
who was recently defeated by  
37 votes in the national election  
for vice president-at-large in  
the D. A. R., issued an appeal  
for remaining members of the  
local organization to hold their  
groups together. She did not  
take issue with those who had  
resigned, a group headed by  
Mrs. David Starr Jordan, wife  
of Stanford's chancellor emeri-  
tus.

At the same time Robert E.  
Swain, who has been acting

president of the university since  
Secretary of the Interior Ray  
Lyman Wilbur accepted his  
cabinet post, was conducting an  
investigation of the editorial.

The editorial, written by Rob-  
ert D. Speers, a senior, took  
exception to statements in a  
syllabus used by students of the  
school of mining which was pre-  
pared by their dean, Theodore  
Hoover. One sentence said  
"the human race develops by  
war and succeeds by war in  
proportion to its use of metal;  
races perish in peace."

Speers remarked in his edi-  
torial that the statements were  
"shocking in an American uni-  
versity where men and women  
were supposed to think in terms  
of humanity."

A statement issued by Swain  
was interpreted in various ways  
on the campus today, students  
still anxiously awaiting comple-  
tion of an investigation which  
might result in an adverse  
ruling for Speers.

### SECRET NAVAL BOARD REPORT TO PRESIDENT HOOVER GIVEN NAVAL AFFAIRS COMMITTEE

WASHINGTON, May 16.—(UP)—Controversy over the navy gen-  
eral board's opinion of the London naval treaty developed today  
before the Senate foreign relations committee when Senator Reed,  
Republican, Pennsylvania, a conference delegate, produced a secret  
report of the board conflicting with testimony of naval officers who  
oppose the treaty.

After Rear Admiral Mark L.  
Bristol had testified the general  
board was opposed to the division  
into six and eight inch gun types  
and had favored only eight inch gun  
cruisers, Reed produced a secret re-  
port of the board to President  
Hoover dated Sept. 11.

In this report, which Reed read,  
the board said 21 eight inch gun  
cruisers of 10,000 tons, 10 six inch  
cruisers of 7,050 tons of the Omaha  
class and five additional six inch  
gun cruisers aggregating 315,000  
tons would be acceptable as cruiser  
parity with Great Britain. Reed  
pointed out the board has asked  
315,000 tons while the treaty gave  
the United States 225,000 tons al-  
though the 21 10,000 ton cruisers  
were reduced to 13.

Jones Before Board  
Rear Admiral Hilary P. Jones,  
who appeared today before the sen-  
ate naval affairs committee to re-  
iterate his opposition to the treaty,  
was called before the foreign rela-  
tions committee to discuss this re-  
port, but maintained that while he  
had approved it, it was a reversal  
of this country's previous policy.

Reed's proof that the general board  
had accepted the six inch gun di-  
visions apparently impressed the  
committee.

Bristol devoted a large part of  
his testimony today to Japan, de-  
claring American interests re-  
quired maintenance of the 60-100 ratio  
with Japan. The treaty gives Japan  
a 70-100 ratio. The United States  
would be forced to carry the war  
in case of hostilities with that  
country, he said, and in this case  
the United States would be  
handicapped by the lack of large  
cruisers.

He admitted this country would

#### COOLIDGES MOVE TO \$50,000 HOME

NORTHAMPTON, Mass., May 16.—  
(UP)—This was moving day for  
the Coolidges.  
A five-ton van backed up to the  
famous duplex house on Massasoit  
street shortly after 8 a. m. and  
six men began the work of trans-  
ferring the former president's fur-  
niture from his modest apartment  
to his new \$50,000 home. "The  
Beeches." A threat of rain failed to  
deter Mr. and Mrs. Calvin Coolidge  
from carrying out moving arrange-  
ments.

#### MOTORIST DIES AS MACHINE OVERTURNS

STOCKTON, Calif., May 16.—  
(UP)—An unidentified man was  
burned to death when his auto-  
mobile overturned and burst into  
flames on the Stockton-Tracy  
highway early today, according to  
word reaching the coroner's office  
here.  
Meager reports received by the  
coroner said the accident occurred  
15 miles south of this city. Cor-  
oner's deputies were sent to the  
scene to investigate.

### BISHOP CANNON IS CHEERED AT DALLAS PARLEY

Thunderous Applause Given  
at Introduction of Fa-  
mous Cleric

DALLAS, Texas, May 16.—(UP)—  
Thunderous applause greeted  
the introduction of Bishop  
James Cannon jr., of Virginia, by  
Bishop W. N. Ainsworth before the  
quadrennial general conference of  
the Methodist Episcopal church,  
South, today.

Delegates and visitors rose in a  
body when Bishop Cannon appeared  
at the front of the platform to take  
up the duties of presiding officer.

After quiet was restored, the  
bishop in a brief statement said  
that in view of certain conditions  
known to the conference he would  
request Bishop W. B. Beauchamp of  
Atlanta, Ga., to preside for him at  
today's session.

Bishops preside in order of sen-  
iority, and today was Bishop Can-  
non's time to occupy the chair.  
He told his audience he hoped he  
would be able to preside later on  
in the session.

Immediately following Bishop  
Cannon's departure from the plat-  
form, Bishops H. M. Dubose, of  
Nashville, Tenn., and E. D. Moun-  
son, of Charlotte, N. C., rose to say they  
respected published infirmities that  
supporters of several bishops charged  
with excessive political zeal had  
compromised with an anti-Cannon  
group in the episcopacy committee  
which has the charges against  
Bishop Cannon under consideration.  
They heatedly denied that there had  
been any trade-outs of any nature.

#### SLAYER OF FIVE DIES ON GALLOWS

SAN QUENTIN PRISON, May  
16.—(UP)—Armando Bortares, 26-  
year-old Mexican truck driver from  
Los Angeles, died on the gallows  
today, surrendering one life in  
payment for five he took last No-  
vember in one of the most gruesome  
series of crimes in Cali-  
fornia's history. Bortares went  
through the trap at 10:04 a. m.  
and was pronounced dead 16 min-  
utes later.

LEAVES FOR DAYTON  
KANSAS CITY, Mo., May 16.—  
(UP)—Van Lear Black, chairman  
of the editorial board of the Bal-  
timore Sun and credited with fly-  
ing more than 150,000 miles in the  
past three years, took off in his  
tri-motored Fokker airplane from  
the Municipal airport here at 9:35  
a. m. today for Dayton, O. He is  
completing the last leg of a globe-  
circling trip.

### NO VISITORS ALLOWED IN CELL TODAY

Former Truck Dealer Here  
Asks That He Be Left  
Alone Until His Trip

ANXIOUS TO START

Several Other Prisoners to  
Be Taken North When  
Sheriff Leaves Monday

DUE to the inability of the  
sheriff to make necessary ar-  
rangements for the removal of  
William Wolf Ross, former More-  
land truck dealer here, to San  
Quentin prison, where he must  
serve a term of from one to 10  
years for robbing the Federal Fi-  
nance company of \$10,000, the  
prisoner will not be taken north  
until Monday morning, Sheriff  
Sam Jernigan announced today.

Sheriff Jernigan was to have  
left here at 5 o'clock this morning  
with the prisoner and had expect-  
ed to lock him behind the prison  
bars of "the big house" late this  
afternoon.

There are several other prison-  
ers, sentenced yesterday to San  
Quentin who will be taken at the  
same time Ross goes up, and the  
delay was caused in securing pa-  
pers for removal for them, and  
the fact that all arrangements  
have not been completed in re-  
moving Ross, the sheriff said.

In the meantime, Ross, anxious  
to get away from Orange county,  
so that he can start his term, is  
sitting in his cell in the county  
jail, not seeing visitors today.

He made a request of George  
Boyd, jailer, that all visitors be  
kept away from him today, be-  
cause he did not want to talk with  
any one, reporters included.

There is no ban on seeing the  
prisoners, but Boyd said that it  
was a privilege that a prisoner  
unless he wanted to see visitors  
unless he wanted to see do.

No one had visited him in the  
county jail today. He is in a  
felony tank, with a score of other  
prisoners, several of whom are to  
go north with him Monday.

Withdraws Claim  
Robert Mize, attorney for the  
Federal Finance company, announ-  
ced today that Mrs. Edna E.  
Olmstead, Santa Ana telephone  
operator, had withdrawn her claim  
to the \$1000 reward, which the  
Federal Finance company offered  
for Ross soon after he disap-  
peared.

This would leave only James T.  
Teel, Los Angeles police officer to

J. Locke, well known British no-  
velist, died here last night during a

operations.

Gate of Samaria," his first novel.

Since then he had written and

plays, the last of which was pub-  
lished only a few weeks ago.

The public's gifts to the anti-

nearly a million dollars in 1919 to  
approximately one-fourth of that  
amount last year, the senate lobby  
committee has revealed.  
Records of the league made pub-  
lic by the committee yesterday  
showed total contributions of \$5-  
533,585 for the last 10 years.

who donated \$116,250 during the

200 in 1919.

## DEATHS

### A WORD OF COMFORT

When you are tempted to imagine that your love has been essentially individual and exclusively your own, you are forgetting that it has been yours as a member of a race with inherited instincts and convictions. Except for the deeply embedded expectation of a life of relationship continuing on after "death," love would be exquisite torture, since separation would always lurk just around the corner, promising to put an end forever to the sweetest thing in your life.

The race cannot be wrong in its universal instinct and you may be as certain of eternity with your beloved as you are of the joyous days already lived. Strive then to become more and more worthy of what is to be.

Many Santa Ana Scots and their wives were among the excursionists, including Mr. and Mrs. Walter Wright, Mr. and Mrs. Walter Kaufman, Mr. and Mrs. Edward J. Allen, Balboa Island; Mr. and Mrs. C. A. Rousseau, Mr. and Mrs. Charles H. Ryan and C. E. Carlson. Carlson is scribe of the order, and Walter Wright is a past toparch.

Other entertainment acts are to be originated by the Scots themselves, with a silver cup and cash prizes to be awarded the pyramid furnishing the most amusing program.

Early morning of the trip will be enlivened by a mock trial that promises to furnish amusement for everyone on board, while other affairs on the program will include a 48 party and the midnight masquerade ball to be held Saturday.

Immediately after their arrival in Ensenada tomorrow noon, the Scots and their guests will be served a turtle barbecue in the dining room of the Playa Ensenada hotel, and it has been stated that several tons of turtle meat will be served.

## GIRL ARRESTED IN BIG BOND ROBBERY

**CHICAGO, May 16.**—(UP)—Hilda White, about 24, has been arrested in Los Angeles, according to word received here, in connection with the \$75,000 bond robbery of the Albert Brandt company here on March 28, 1929.

The girl was said to have \$25,000 worth of these bonds in her possession when arrested. The office of the company was broken into and a safe blown by the burglars.

Max Burman and Lewis Arnold were arrested but jumped bond. Warrants are out for their apprehension.

Many of the bonds were said to have been distributed in San Francisco and Los Angeles banks.

## Divorce Complaint Says Spouse Tends To Bolshevism

Charging extreme cruelty, Ella A. Davis, former library employee, filed suit today for divorce from Leo V. Davis. The plaintiff alleged that her husband refused to permit her to go to the library and forced her to give up employment there, characterizing the place as a hangout for rough and immoral persons.

She also alleged that during the past two years her husband has developed Bolshevistic tendencies, refusing to register to vote, refusing to give information to the census enumerator and declaring that he would not permit their child to attend schools, which he said were breeding places for corrupt morals. Mrs. Davis asks custody of their two-year-old child and an order of \$30 per month for support. The Davises were married in Riverside in 1927 and separated this month, the complaint said.

## Court Notes

Francisco Saguas, who was charged with operating a motor vehicle while under the influence of intoxicating liquor, was ordered to pay a fine of \$250 by Judge James L. Allen yesterday in superior court. Saguas entered a plea of not guilty to the charge, but the fine was levied by the court on a charge of reckless driving entered verbally by Deputy District Attorney Sam Collins, to which the prisoner pleaded guilty.

Seeking to recover damages to her car, which she claimed, was wrecked in an accident at Fullerton early last month when it was struck by a truck, pushed for a distance of 110 feet across a curb and into a brick building, Margaret I. Hood yesterday filed a damage action against J. R. Croxson, et al. The plaintiff alleged her car, which was driven at the time of the crash by Blanche Ritchey, was worth \$650 before the collision, and that afterward she was only able to realize \$50 from it as junk. She asked damages in the amount of the difference, \$600.

Asking judgment for restitution of the premises, \$500 for back rent asserted to be due, and an additional \$100 for each month that the property is withheld from their possession, the Security First National Bank of Los Angeles yesterday filed suit against Sam Granz. The property concerned is located at 311 East Fourth street. It was rented under a three-year lease in October, 1929, but the plaintiff alleges that five rent installments are due and unpaid.

## 'DUKE' HALL WILL BE AT WALKATHON

The American Legion last night announced that it had secured the services of one of the most celebrated masters of ceremonies the world ever has known, the famous "Duke" Hall. When the announcement was made at the Walkathon, it was met with much cheering and joy, for it was well remembered that Hall was responsible for the success of several recent contests in the Southland.

"Duke" Hall has officiated at the majority of the greatest endurance contests throughout the United States, making a deep study of them with Henry Polk.

With the arrival of Hall the contest has taken on a new interest to the people of Santa Ana and the post hopes that all friends will be at the canvas stadium tonight to welcome him.

Hall says that he has a number of surprises in store for the Walkathon patrons. There are 10 couples still on the floor with the 200th hour well past. All of them seem very well sleepy.

## FORMER RESIDENT OF CITY PASSES

Mrs. Minta Johnson, a former resident of Santa Ana, died yesterday at her home at Covina. She was 78 years of age.

Funeral services will be held in this city, at the chapel of Smith and Tuttle, Monday, at an hour to be announced later.

She is survived by two daughters and one son, Mrs. Sylvia Nash and Mrs. Della Spears, Los Angeles; and Frank Johnson, Covina; and four brothers, Joe Glines, of Modesto; Perry and Anor Glines, of Covina and Dow Glines, of Glendale.

Mrs. Johnson was a woman who helped pioneer Orange county, her father being one of the early day settlers of the district now comprising Wintersburg and Talbert. She was the widow of Charles Johnson, who in the early day, was associated by D. F. Spangler, father of George Spangler, of this city, in operation of a general blacksmithing business.

With her husband and family Mrs. Johnson moved from Santa Ana to Covina some 20 years ago.

## Woman Voters

Col. S. H. Finley was the speaker at the League of Women Voters' regular meeting yesterday morning, when they convened at 10:30 a. m. in the Y.W.C.A. building.

Following a short business session, conducted by the president, Mrs. C. W. Gordon, Col. Finley was introduced. His talk on "The Metropolitan Water District" was unusually enlightening to the interested group. He gave detailed

accounts of the four routes planned to bring water to Los Angeles, together with the approximate cost and the difficulties to be met in making the aqueducts.

The league had an excellent opportunity to learn about the true water conditions, and to become acquainted with any of its many phases, as Col. Finley had very kindly consented to answer questions concerning his subject.

The next meeting of the League of Women Voters will be a study class the first Thursday in June when the "Regulation of Public Utilities" will be discussed.

## DONS AND DONAS FROLIC ON COLLEGE CAMPUS AS FIESTA DAY ACTIVITIES HOLD SWAY

Color ran riot on the Santa Ana junior college campus today as students and instructors celebrated their third annual Spanish Fiesta day, dressed in gay costumes of old Spain and early California.

Several hundred Dons spent the day in costume and were to conclude their festivities tonight with the annual college play, "The Show Shop." The program started at 10 a. m. with the coronation of Abbott Mason and Miss Mary McHenry as Don and Dona, by the Rev. Father St. John O'Sullivan of San Juan Capistrano.

At 2 p. m. several hundred graduating seniors from Orange county high schools arrived and spent the rest of the day as guests of the Dons. After the program, a dinner was to be held on the front lawn, to be followed by a dance in the gymnasium. At this time, also, judging of the O. K. Club whistler contest by three barbers of Santa Ana, was to take place.

The coronation of the Don and Dona was followed by a Spanish dance by the dancing classes of the college. President D. K. Hammond introduced Virginia Stivers Bartlett, co-author of "Adios," book on early history, who gave a speech on early California.

Other events on the program were a vocal solo by Margaret Rust; Spanish dance by Florence Brownridge and Ed Adams; selection by the men's quartet, composed of Simon Toelle, Virgil Purvis, Marquise Hare and James Lukins; a talk by Jeffrey Morgan, famous humorist and composer, and a Spanish instrumental trio.

After luncheon in the "Y" hut, an hour of folk games, led by the Longfellow club, was enjoyed by the Dons and Donas.

The afternoon program consisted of a welcome to the seniors by George Warner, president of the Associated Students; music by the Don quartet; cornet duet, by Bill Motley and Warren Schult; Mexican whip act, by Baxter Geeting; violin solo, by Louis Romoff; vocal solo, by Nada Hill; double whip act, by Baxter Geeting and Gene Olsen; Spanish dance, by Florence Brownridge and Ed Adams; vocal solo, by Katherine Kivins; Spanish skit; and xylophone solo, by Everett Idler.

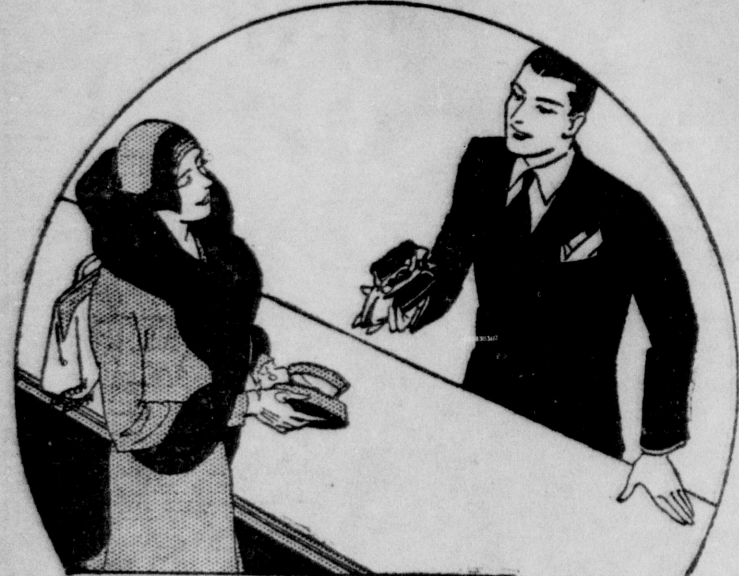

At 4 p. m. a guided tour of the campus was given to the guests. Dinner on the front lawn was served by the Brotherhood of Bachelors, Longfellow club and Sisterhood of Spinners.

"The Show Shop," a four-act comedy by James Forbes, will present the unusual angle of a "play within a play," with rehearsal scenes, stage hands and curtain calls taking an important part. Ernest Crozier Phillips directed the junior college cast and was assisted by Mrs. Estelle Card Beeman.

## MISSION TO BE ORGANIZED AS CHURCH SUNDAY

With an impressive ceremony at three p. m. next Sunday a Presbyterian mission that has been operating at Smeltzer and Wintersburg for the past 26 years will be organized, as the Japanese Presbyterian church of Wintersburg. The Rev. K. Kikuchi and his wife, who have been in charge of the work among the Japanese people in the community for the past four years, have been instrumental in securing the approval of the Los Angeles Presbytery for the organization of the church.

Dr. Guy Wadsworth, secretary of the Presbyterian board of church extension, of Los Angeles, will preside at the service. All pastors and elders from the nine Presbyterian churches in Orange county will have a part in the service. It was announced. The Rev. O. Scott McFarland, of the First Presbyterian church, Santa Ana, will give the benediction; the Rev. Thomas Walker, pastor of the church at Anaheim, will bring the greetings of the Presbyterian ministers of the county, and a history of the mission will be presented by a member of the Westminster church, which started the mission 26 years ago.

The action to organize the Japanese church was taken at the spring session of the Los Angeles Presbytery last April. At the service Sunday, to which the public is invited, elders and deacons of the new church will be ordained and the Rev. Mr. Kikuchi will be installed as pastor of the church. He has served as mission pastor for the past four years.

The mission was founded in 1904 by members of the Westminster Presbyterian church for service among the Japanese residents of the community near Smeltzer, which at that time was the only colony center in California. The Rev. K. Terasawa was the first Japanese pastor of the mission, which was the first one opened in Southern California for the Japanese people. The Wintersburg church is one of four Japanese Presbyterian churches in Southern California, and one of 16 on the Pacific coast. There are approximately 30 Japanese churches in Southern California, of all denominations, according to the Rev. Mr. Kikuchi.

There are nearly 3000 Japanese residents in Orange county, the pastor stated, and many of these are centered in the district which the Wintersburg church serves. The Sunday school is very active, with nearly 100 pupils in attendance, and the Christian Endeavor society has 30 members. The membership of the church is 40. Most of the members are young people.

The Rev. Mr. Kikuchi was educated in Japan, attending the Japanese mission schools there, and is a graduate of North Japan college, one of the most famous schools in the island empire. He was licensed as a Presbyterian minister following his graduation from the

seminary there. He came to the United States seven years ago and studied in the San Francisco seminary and Princeton seminary. He was awarded his master's degree in theology from Princeton in 1926.

Mrs. Kikuchi also graduated from the same school in Japan and was teaching in the high school in Sendai, Japan, before she came to the United States four years ago to marry the Rev. Mr. Kikuchi.

At the service Sunday afternoon there will be a program presented by the Japanese people and refreshments will be served following the ceremonies.

## WINTERSBURG

ation and his brother was one of those initiated. M. L. Russell, who for weeks has been a patient at the hospital, where he was taken following an accident in the oil fields, where his jaws were broken, is slowly recovering but it is not known when he can be dismissed from the hospital.

Wayne Downing, a nephew of M. L. Russell, and son of Charles Downing, who formerly resided here, sustained a broken arm this week. The family now resides in Earl Talley Jr., who attends school in Los Angeles, spent the week end at home.

## SOVIET LENDS AID IN WAR ON GOITRE

MOSCOW, May 16.—(INS)—The commissariat of health has dispatched 25 health officers to Turkistan to assist local authorities in combating a mysterious epidemic of malignant goitre.

Physicians in the Kokand and Zeravshansky districts report that 60 per cent of the population is incapacitated by the disease which is spreading throughout Turkistan. Hospital facilities are wholly inadequate to care for more than 10 per cent of the afflicted, to say nothing of enabling surgeons to perform operations.

Turkistan with its dry climate is normally immune to the disease. Health authorities believe that some chemical substance in the drinking water is suddenly affecting the thyroid glands of the inhabitants.

## SEA SCOUT TO RETURN WITH ADMIRAL BYRD

When the ships of the Byrd Antarctic expedition arrive in the United States in June, one of the most interesting members will be Sea Scout Paul A. Siple, of Erie, Pa., youngest member of the party, who has won the highest commendation from Admiral Byrd for the work he has done since the expedition left New York nearly two years ago.

Information to this effect was contained in a letter received by Scout Executive George G. Walker from the national Scout offices in New York.

"Sea Scout Siple, who is an eagle scout, the highest rank which a scout may obtain, was selected from among thousands of Boy Scouts at the invitation of then Commander Byrd, to be his personal aide," Walker said. "He sailed away from New York on August 25, 1928, the most envied boy in America, with a man-sized job to fill on one of the greatest exploration expeditions of all time. On Dec. 2, 1928, Siple, with the others of the husky group comprising the expedition party said good bye and left Dunedin, New Zealand, the last port of call en route to Antarctica.

"Much has come back over the radio of what the expedition was doing as a whole, but little concerning any individuals, except the leaders. There have been only a few days, from time to time, of what the sea scout was doing during the 14 bleak months on the ice. Such messages as did come through however, were all to the effect that Siple had made good splendidly. It was left for Admiral Byrd to sum up the Sea Scout's accomplishments a few days ago in a radio message to the Boy Scouts of America, as follows:

"Sea Scout Paul A. Siple took up his work in the expedition as a man among men. He stood regular deck watches on shipboard and turned himself into an able seaman on a full-rigged sailing vessel.

"At the base he was given a dog team to drive and soon learned to handle the dogs like a sourdough and went out on the trail. Paul was given the young pups to train and turned out a most useful team that answered many calls for odd jobs around camp. As zoologist he has worked diligently in getting specimens of Antarctic bird and animal life, spending many hours in cleaning and preserving the skins. He has also done good work in taking depth soundings in the Bay of Whales and has been a keen observer on his many pup team trips on the bay ice of animal life and of ice conditions. Along with the rest he has taken his turn at menial tasks such as shoveling snow, house duties, kitchen police and standing night watches. Paul is now on the whaler Larsen enroute to Wellington in charge of live penguins that we are making an effort to bring back to the states and will rejoin ship in New Zealand."

"Siple has since returned to Dunedin from Wellington where he had charge of stowing the penguins aboard the whaler for the trip to the United States. At Dunedin he was royally welcomed by the Dunedin Boy Scouts, headed by District Commissioner W. F. Meek."

Bad weather, a crop insurance expert recently estimates, costs the United States \$2,620,000,000 a year.

## High School Boys Reveal What They Think About Girls

DALLAS, Tex., May 15.—(INS)—What Dallas high school boys say by majority vote:

That if a girl permits one boy to kiss her, ordinarily she will permit another.

Dancing is not harmful, but smoking is.

Prefer that the girl friends do not smoke.

High school boys should not drink liquor.

Most successful men are interested in religious matters.

Have less respect for the girl who allows "petting" than for one who does not.

Most high school students will cheat on examinations if given a chance.

These were generalizations resulting from answers in questionnaires sent to Dallas high school boys.

Would you like to try this doctor's laxative free of charge?

Every family has occasional need of a laxative, but it should be a family laxative. One that can't form a habit, but can be taken as often as needed. When the breath is bad or tongue is coated. Or appetite fails. Only a doctor knows the right ingredients. Dr. Caldwell discovered the right mixture years ago. Dr. Caldwell's Syrup Pepsin combines harmless herbs and pure senna. It starts muscular action and soon corrects constipation. Gently, but surely, it relieves a bilious or sluggish condition. It is mild. Delicious. Effective. All druggists keep this famous prescription ready, in big bottles. Or write Dr. Caldwell's Syrup Pepsin, Monticello, Ill., for a free trial bottle postpaid.

### "I No Longer Have To Take Laxatives"

THOS. C. MATTHEWS.  
"For more than ten years I suffered from constipation and an inactive, torpid liver. I would have severe bilious attacks and constipation forced me to take some sort of laxative or cathartic almost daily."

"It has been thirty days now since I completed the Sargon treatment, and I no longer find it necessary to take pills or laxatives of any kind."

"My advice to anyone needing a strength-building medicine or something to straighten out an inactive liver and relieve constipation is to try all means beginning with Sargon and Sargon Pills."

# NEWS OF LOCAL SCHOOLS

## Roosevelt School

The L5 and L6 classes are very proud of the record they have made in banking this month. Out of a possible four weeks they have kept the banking banner three. There were 29 banking on Wednesday.

Wednesday afternoon the Roosevelt senior boys played the Lowell seniors a game of indoor baseball. Roosevelt carried away the honors with a score of 8 to 2 in her favor. The game was a close one in all but one inning when Roosevelt did most of her scoring.

Paul Wolven received his letter yesterday for his work in athletics. He now has 216 points.

Miss Camblin's Joy Monday classes have been making tiles out of clay. Thirty-five of the best ones have been sent to be fired and will be on exhibition next week.

Miss Camblin's classes have been working on a Junior Red Cross overseas book. It is to include work from every class. It will be sent to India later in the year.

Miss Pulham's third grade is making covers for arithmetic books which have been made during the year. These books will be on exhibit next Tuesday.

Last week Miss Hoy and Miss Knudson showed bird pictures of western birds to the upper and lower grades.

In connection with bird study Mrs. Pagenkopp sent over a case

of mounted birds which her father mounted a good many years ago. Some of the birds were the scarlet tanager, the indigo bunting, two different orioles, and a hummingbird.

Miss Hoy's classes have been working on strip theaters. One gives a picture of the ocean while the other tells the story of the "Runaway Sled."

Some of Miss Walker's classes have also been making strip theaters. These have used foreign countries for incentive. Other classes have been working on costumes of foreign peoples while others have been picturing famous characters from famous books.

The H4's have been turning their art period into a study of famous buildings of foreign countries, while the H3, L4 class have been studying the transportation of the nations. This work is all being done in cut paper on charts.

The garden contest was brought to a close last Wednesday when Hazel Ladd was presented with the prize for the best home garden.

## Lowell School

The primary art classes are a "Trip Around the World," studying the boys and girls of many foreign countries. We plan to make travel books and will paste into them paper dolls from each country we visit. We are also going to make a Japanese sand table. It will be fun, we think.

The Music Memory contest was given to the primary grades last week. We did not get 100 per cent in all the classes but we did real well. Our grades were:

B-3 class .....100 per cent  
A-2 class .....100 per cent  
B-2 class .....92.5 per cent  
A-1 class .....93.6 per cent  
B-1 class .....100 per cent

The second grade is making a spelling book. When they get a 100 per cent paper they get a circus animal stamped on it. They are trying to get all the animals of the circus by the end of the year.

Lowell school won the music memory contest again this year. We have kept the silver cup two years. If we win next time, we can keep it forever. The way we won the cup was by hard work.

The teacher plays a phonograph record, and the children give its name, the composer's name and his nationality. Everybody in Lowell school hopes to win the contest next year, and keep the silver cup.

—Walter Swanberger, 5B.  
The boys and girls in the fifth grade are going to have a radio program Wednesday afternoon. Ralph Gill will be first, playing a harmonica solo. Trenton Armstrong will also play on the harmonica. There will also be two piano solos, a tap dance and a violin solo. There will be two plays. Joe Lemans will play on the guitar. We all hope it will be enjoyed by the other classes.

—Charles Glatzback, 5-A.

## Logan School

In the Logan school we have a new radio. We appreciate it very much. We thank the board of education for buying it.

We went to the high school for a man play the "Land of the Sky Blue Water" and "At Dawning," two of his own compositions.

Ester Carmona.

We thank the school board for our new keen radio. We have pretty music when we have our music class. Our teachers give us good education.

On rainy days we don't care if we don't have our recesses like we should but we have good education. We had radio party. We had apples and candy.

Vera M. Gallardo.

We are thanking the board of education for the pretty radio that was given to our school. One of the rainy days we had a pretty party. Mrs. Hughes gave us apples and candy. We enjoy the radio for hour.

At our Easter party we had sandwiches and eggs. The eggs were cooked and dyed. It was out under the big pepper tree.

Ygnasia Esquivel.

Our kindergarten has the largest attendance of the year with 27 enrolled and full attendance every day. The children have built a library of blocks with shelves for the books and a desk for the child acting as librarian. While the smaller children are having vocabulary, the older children can look at picture books at the library. This project has helped the children in learning English. The children are learning to write their own names in order to take books from the library.

Isabel Flores.

In our school we have a new radio. It was a very expensive one. We thank the board of education very much for our new radio. We had candy, apples and a very good time.

Consuelita Saldivar won first prize in the third grade W. C. T. U. contest. She got three dollars. Joe Valencia won the fifth grade \$1 prize. Luis Martinez won the \$1 prize for the seventh grade. Henry Perea won the \$1 prize for the sixth grade. We were all very proud of them.

John Flores.

## Edison School

Last Friday the Edison boys and the John Muir boys had a ball game. John Muir won.

Monday, the seniors are going to play Delhi. We are practicing very hard.

Arthur Porter.

Last Wednesday three bankers visited us during our banking period to see the school banking system. They said our tellers, Billie Jones and Harold Jesse, were about ready for a position in a real bank. They seemed to be pleased with the interest of the children and the good work of the bank committee.

Leo Lyons.

Next Thursday we are going to have a play called "The Magic Whistle." There are going to be many acts. Clarence Barney is Tom who finds the magic whistle, and Bob Reid is Jack who blows the whistle and takes the charm away. The play is to be given in the new auditorium.

Clarence Barney.

In the reading room we have a pirate chest in the corner. It has heads and other valuable things in it. There are pirate books in it. One is "Moby Dick" and another one is the "Pirates' Treasure." We are going to have pirate dolls in it, too. It is a very interesting corner.

The third grade geography pupils are making an Indian scene in the sand table. They have Indian men and women. One woman has a papoose on her back. There is a canoe on a lake. There are teepees and a little camp fire. In one corner is a log cabin to show that Indians now live in houses as we do.

Russell Johnson, a very popular student of Edison school was standing on a bench when it fell over. He broke his arm. We feel sorry for him.

Zanell Morton won first prize in the fifth grade W. C. T. U. contest. She also took sweepstakes, of which we are very proud. She received four dollars. Dorothea Gable, Billy Reid and Nadine Ringler each received one dollar as first prize in their respective grades.

The P. T. A. of Edison school will give the second annual supper on Friday, May 23. The menu will be meat loaf, scalloped potatoes, baked beans, salad, and pie.

Leo Lyons.

After the Junior Olympic the boys received their pins. Arthur Porter won two ribbons. Harold Jesse won a pin. Both of the boys are proud of their honors.

Arthur Porter.

In Mrs. Alexander's room we have a notice about "Help Save the Birds." I think it is a very good idea.

Virginia Hill.

In the nature study room we have a big bull frog tadpole. It is the largest tadpole I have ever seen.

Gus McCuiston.

I know a good place to get frogs. A week ago I got two little ones. I am going to bring some more to Mrs. Alexander, our nature study teacher.

Andrew Marquez.

## TEACHERS' CONTRACTS

OCEANVIEW, May 16.—Contracts for next school term have been handed all of the teachers of the Oceanview school with the exception of one, Miss Mavis Smith, teacher of music and the fifth grade, who has handed in her resignation.

## John C. Fremont

In Mrs. Taubee's room we are making books covered with wall paper. When the book is finished we make our own monogram and paste in the front of the book.

Edilia Guerrero.

We worked out puzzles in Mrs. Smith's room Thursday afternoon. It was fun to work them out. I worked a Mother's day puzzle and got it right. There were different kinds of puzzles. Some were very hard and some were easy.

Rachel Benites.

This is a copy of the letter we sent to Miss Helen Kellar:

Dear Miss Kellar:—  
We have been reading about you and your work for blind children in our Fifth study reader by Walker and Parkman. We are interested in how the blind children read and what a Braille page looks like. We want to help with our pennies. Wishing you happiness and good luck.  
Sincerely yours,

Arturo Tiscareno, Jesus Torres, Beatrice Tiscareno, Raymond Duran, Joseph Estrada, Serapio Petran, Ygnacio Perez, Mike Morales, Carmen Saldivar, Vincent Sanchez, Arthur Saldivar, Edilia Guerrero, Ernest Chavez, Victoriano Chavez, Ruben Segovia, Mike Cruz, Pablo Galvan, Gregory Chaires, Maguna Nuvas, Ruth Horres, Arthur Mendez, Tom Chaires, Alfred Gutierrez.

Dagaverte Garcia.

We are studying about Columbus' first voyage in Mrs. Drury's room. His ships were named Santa Maria, Nina and Pinta. The Nina was the fastest ship of the three.

Arturo Tiscareno.

Monday we had a nice program for our mothers. Mrs. Ritter invited all our mothers to come to school at 2 o'clock. The first of the program was a song, "The Dearest Spot on Earth" by Carmen Saldivar, Ruth Torres, Annie Arriola, Lupe Sanchez, Jesse Loya, Jennie Segura and Vera Mendez. While the girls were singing, Frances Garcia and Carmen Segovia were giving red carnations to the mothers.

The next song was "Rock Me to Sleep, Mother" by Edilia Guerrero, Maria Arenas, Virginia Cinceros and Lupe Mendez. Then they served punch and cookies to all of the mothers.

Feliz Cruz.

On Monday morning, Mrs. Smith gave to the boys and girls the same program that they gave to the mothers in the afternoon.

Arthur Saldivar.

The junior boys played McKinley junior boys on Tuesday afternoon. It was not a good game. The score was 3 to 12 in McKinley's favor.

Vincent Sanchez.

All the sixth grades went to the high school to have our music contest. We saw Cadman there. A lady sang two songs and Cadman played the piano while she was singing. Then he played three pieces. He said the last one was about Charlie Chaplin. It was sure funny. Then the high school boys and girls played some of the pieces. Then they played the rest of the records on the radio. When we finished, Mrs. Beeson called the music teachers to stand and we gave them a hand.

Nellie Parra.

Thursday the seniors had a ball game with McKinley school. It was a good game. The score was 6 to 4 in McKinley's favor. Next week we have a game with Spurgeon. I hope we have better luck.

Paul Hernandez.

Mrs. Cray's room had a program Friday morning. It was a very nice program. It had 13 children in the program. They sang three songs. The first song was "The Little Yellow Dandelion." Lillian Feilz.

We are working in the woodshop. Some are making hobby horses, some racers and stools and anything they want to make. I am making a stool. I have it nearly finished. I think I will finish it by Tuesday. The 5A and 6B boys will work in the shop next week.

# GIRL, 19, WINS BRITISH TITLE FROM COLLETT

By F. A. WRAY  
(I. N. S. Staff Correspondent)

FORMBY, Eng., May 16.—Many a slip twixt cup and lip—Blue-eyed, flaxen Diana Fishwick, an obscure 19-year-old school girl, is the champion woman golfer of her motherland today, not the world-famous Glenna Collett, of America. Little Miss Fishwick won in the final round of the British championship this afternoon by the score of 4 up and 3 to play, while Glenna, no longer the assured, confident champion who wiped out the great Edna Wilson and the greater Molly Courlay on successive days, was giving the performance of a neophyte.

Thus, for the second year in succession, the cup was at the fair American's lips but, just as in the 1929 final round with Joyce Wethered, the potion she quaffed was no better than the dregs, the nectar of

victory had been claimed by another. Failing in her fourth attempt to win the British women's championship—the one major golf title never won by the United States—Miss Collett took her defeat good naturedly.

Although she seldom smiled during the match, Glenna smiled as soon as the match was over and insisted on taking Edna Wilson's hand and leading the way to the bench in front of the clubhouse. Miss Collett defeated Miss Wilson in the semi-final round, 1 up.

Miss Fishwick was sitting in front of the clubhouse, waiting to receive the trophy. The crowd cheered as Miss Collett approached with her English companion. Glenna walked over to where Diana was sitting and threw her arm around the young English girl, who two years ago was British girl's champion. Miss Fishwick's expression alternated in smiles, grins and blushes.

# SANTA ANA AND OLIVE COLLIDE HERE TONIGHT

(Continued From Page 12)

In time to reach first the championship goal for the first half but they may attain a form by mid-season that will put them ahead of the pack in the second round.

"Bono" Koral and Rudy Heman are scheduled for pitching assignments although Bill Cole, captain of the Stars, may decide to use Ray Price instead of Koral. Joe Cornellius will get a rest unless Koral and Price both go haywire. The former Imperial valley baker has been called on to start four games in a row, winning three of them.

Heman's unorthodox delivery always has troubled Santa Ana and is certain to draw the assignment again. Heman throws a curve that breaks in fast at right hand batters. That kind of pitching is supposed to be easy for the Stars with their bevy of portside hitters yet they were helpless the first time this term that they faced the husky Heman.

"Bony" Wilcox will do the catching for whoever is asked to pitch. Curt Youel, Leavitt Daley, "Memphis" Hill and Darwin Scott will make up the infield. Wayne Nelson, Orv Schuchardt and "Rosy" Merrill will be in the gardens.

Turley will be Heman's battery mate. Sweet, the Babe Ruth of the outfit, is Olive's first sacker. Arguello will be at second base, Rice plays third and Walters short. El Guenther, Fred Guenther and Shell comprise the outfield.

Garden Grove goes to Anaheim tonight. The Chillepeppers always have been a stumbling block for the Valentinas and an upset is possible. Fullerton, wrought by dissension, is not counted on to give Whittier more than a workout at Whittier. La Habra invades Orange for a pretty sure licking. The best tiff of the night is expected at Huntington Beach where go the Long Beach Acorns. These two are natural rivals.

The National league standings are gradually beginning to look natural again with Anaheim, Whittier and Long Beach setting the pace and Santa Ana slowly finding itself and getting up near the leaders. Fullerton has been the surprise of the season, sticking tenaciously in the front flight. Huntington Beach has been the biggest disappointment of the campaign, dropping into the lower division despite a strong roster. Garden Grove, Olive, Orange and La Habra are keeping the Oilers company down there.

## Tom Thumb Golf Teams Clash On Course Tonight

Santa Ana and Fullerton will meet in a new sport here tonight. Tom Thumb golfers representing the two cities will play a series of games on the "tiny links" at 1201 South Main street, with the first one scheduled to begin at 8 o'clock. Charles Dentle, Gaylord Hicks, Warren Bramley, Clay Burrington, Howard Dixon and Charles Kauffman will be in the Santa Ana lineup with F. R. Crawford, S. Rogers, H. Roeschlam, R. Roeschlam, M. McKeehan, G. Goodell playing for the visitors.

Hicks, Bramley and Burrington hold the course record at the Tom Thumb club. They all have shot 37's against a par 42.

## Stranger Sold To L. A. Ice Magnate

NEWPORT BEACH, May 16.—The Stranger, 110-foot pleasure cruiser which has for years been one of the most attractive craft in Newport bay, has been sold by Fred Lewis, Spadra rancher, to J. L. Zeigler, Los Angeles ice magnate, it was learned today.

Lewis will build a larger yacht, it was reported, while Zeigler plans to build a home on Balboa peninsula where he will be near his floating palace.

The Stranger was a sub chaser during the war.

## Emanuel, Lawyer, Puts Out Shingle

LOS ANGELES, May 16.—Arm and Emanuel, San Francisco attorney-boxer, has just "hung out his shingle" along with Max Lewis for the practice of law here, according to neat looking announcements mailed the boxer's acquaintances.

Emanuel often said that he planned to settle and practice the legal trade when he accumulated \$40,000. Maybe he has that now since the \$5000 received earlier this week for his fight with Jimmy Maloney.

LOS ANGELES, May 16.—The last and biggest thing in the auto racing world before the annual classic at Indianapolis, will be held at the American Legion speedway here Sunday when some of the world's greatest dirt track pilots go to the post in the 100-lap sweepstakes.

The race lineup, as announced by Dr. Fred Loring, head of the Legion contest board, will include an Italian helmet dash and 20-lap consolation race as well as 100-lap event.

## VAN RYN BRILLIANT IN DAVIS CUP PLAY

PHILADELPHIA, May 16.—John Van Ryn's impressive showing against Dr. Jack Wright of Montreal in the opening match of the Canada-United States Davis cup series today brightened American hopes to annex the series.

Van Ryn outclassed his Canadian opponent from the start and was leading two sets to one and 5 games to 2 in the fourth set when rain halted the match. Play was to be resumed today.

George M. Lott of Chicago and Marcel Rainville of Canada were to meet in the second singles match and Van Ryn teamed with Wilmer Allison in the doubles against a Canadian team, as yet unannounced.

# Murder Backstairs

©1930 by NEA SERVICE INC. ACTION by ANNE AUSTIN AUTHOR OF "THE AVENGING PARROT" "THE BLACK PIGEON," ETC.

Dundee scarcely heard the flurry of words with which Mrs. Berkeley introduced her daughter, Clorinda, for his attention was wholly upon the tall, dark, insolent beauty, dressed ravishly in a period gown of wine-red velvet, unadorned except for a wide bertha of exquisite old-fogy lace, which swung low to reveal the rise of faultless breasts and the marble-white perfection of shoulders. His blue eyes eagerly met the somber, arrogant brown ones, but he had an uncomfortable conviction that Clorinda Berkeley did not see him at all. She bowed slightly but she did not speak.

"Mr. and Mrs. Benjamin-Smith," Wickett announced. The Benjamin Smiths plunged heartily into the drawing room and had themselves introduced by Mrs. Berkeley as "my brother and his wife." As the detective was deducing that George Berkeley had made a moderately rich man of his brother-in-law, out of the kindness of his heart or in self-defense, Mrs. Smith was twittering to him:

"And are you Mr. Seymour Crosby?" We're being simply dying to meet Clorinda's young man, and of course we've read such reams about you."

"Don't be an idiot, Lily!" Mrs. Berkeley cut in sharply. "This is Mr. Dundee, a college chum of Dick's. Mr. Crosby hasn't come down yet, and you really mustn't. Oh!" she broke off as Gigi kicked her. She glanced toward the wide doorway leading into the front hall, and her face was immediately transfigured. She glowed, she beamed, she adored, she fluttered.

"No, rilly, my dear Mr. Crosby. You're not at all late! I do hope you found your rooms comfortable, and Johnson not too ghastly a valet. Mr. Berkeley simply refuses most ridiculously to have a 'man' for himself and Dick, and Johnson is

the best I could do locally.... But I mustn't monopolize you, must I? I'm afraid you'll find us a dull little family party tonight. We're rather saving our energies for the big affair of tomorrow night."

And this Bonnie Dundee met a man whom he would have traveled many miles to look upon, curiously, speculatively. For Dundee was a born detective, and the true story of Seymour Crosby and a certain night in London was one of a score of mysteries he would have sacrificed much to solve.

CHAPTER III

"Run along, Gigi," Dick Berkeley commanded, slumping to the couch beside Dundee as Wickett was serving coffee in the drawing room. "You've probably handed Dundee so many shocks already that he's as groggy as I am. Go cheer up Mrs. Lambert. She's looking rather low, and no wonder.... Thanks, no coffee for me, Wickett. I don't want to take the edge off this jag I'm conscientiously acquiring," and he appropriated two of the tiny glasses filled with a golden liqueur.

"I'll bet Mr. Dundee would rather I'd do the shocking than you!" Gigi retorted, thrusting out her tongue at her brother. But she obeyed, winging her way across the enormous, too gorgeous, too new room to where the social secretary sat quite alone.

"Funny kid, Gigi," Dick commented. "She's the best of the lot, of course. Half-baked yet, and disgustingly frank, but heart of gold, and all that sort of thing. I like Gigi!"

"So do I!" Dundee agreed cheerfully, his eyes taking in with pleasure the picture which the golden-haired child and the beautiful white-haired woman made as they sat together in a distant window seat.

"This stuff is too damned sweet," Dick decided suddenly. "Got to have something to take the taste out of my mouth." And he plunged, not too steadily, towards the dining room.

As he was returning his father intercepted him, saying something sternly emphatic in a low voice. Then the older man strode determinedly into the dining room.

"Poor Dad! He has a hard time trying to keep the inebriates of this family from making holy shows of themselves," Dick told Dundee, as he slumped again upon the couch. "But in case you're feeling dry, old man, I had the happy thought of filling my hip pocket flask on that trip."

"Thanks. I've had more than enough," Dundee replied absently. He was wondering just how many "inebriates" the Berkeley family was cursed with, and just who they were.

"Rather Sir Galahadish, aren't you?" young Berkeley almost sneered. "So is Dad. He unlocks his pre-war cellar only when Mother broods in a low voice, to celebrate some auspicious occasion as this. Happy-looking lovebirds, aren't they?" and his sneer was unmistakable as his glance brooded upon his sister Clorinda and Seymour Crosby, who sat silently in an atrocious love-seat, each handsome face somber with brooding. "God! I've got to do something to liven up this party!"

A minute later Dick's half-blind fumbling with the dials of an enormous radio cabinet released a flood of jazz music.

"Come on, Lily!" he shouted to his aunt. "Let's show these corpses how to do the 'Breakaway'! 'Break away! Get hot and break away!'"

"Dance with me, Mr. Dundee?" Gigi cried at the top of her voice, as she slithered across the floor. "Dad, you make Tish dance! Come on!" she challenged Dundee and he willingly held out his arms.

Three other couples obeyed the compelling syncope, Dick harrangued and scolded his giggling aunt; Clorinda and Crosby, their steps matching perfectly, proved

rage-reddened face, lifted a hand and slapped her cheek resoundingly. "Oh!" Gigi gasped incredulously. And she made no resistance when her mother snatched the crystal flask from her suddenly relaxed little hand, before it could drop and shatter. Then she looked at her mother, and Dundee thought he had never seen such contemptuous hatred as paled the Puckish little brown face and distended the no-longer childish eyes.

In another moment George Berkeley was at his wife's side, and he was saying in a low voice of concentrated fury, that was perfectly audible in the hushed room:

"Don't do that again, Abbie! Never again, do you hear me?"

At that moment the recuperated orchestra, miles away, broke into "The Pagan Love Song," and the room was filled with languorous melody, superimposed upon quivering waves of anger, fear and hatred.

As the paralysis lifted, Dundee, still dazed, still seeing red, was aware that Dick Berkeley was lunging drunkenly toward the wide-arched doorway that led into the front hall. Gigi, who had been cornered near the doorway, backed

blindly a few steps, then turned and ran, her rasping sobs loud above the music.

Uncertainly, Dundee glanced about, saw the still white misery in Mrs. Lambert's delicate face, the contemptuous shrug with which Clorinda was trying to dismiss the incident, and the shocked amazement and disgust on the aristocratic face of Seymour Crosby.

"Will you excuse me a moment? I wish to speak to Dick," Dundee numbers to George Berkeley, who gave no sign that he heard.

It was no desire to speak to Dick Berkeley, however, which took Dundee out of the room. It was an urgent impulse to telephone Captain Strawn of the Hamilton Home-icide Squad.

# Census Shows Newport Beach Fastest Growing City

## MAKES GAIN OF 146 PER CENT IN TEN YEARS

Considerable satisfaction was expressed by Chamber of Commerce and other civic leaders at Newport Beach today, when preliminary figures were announced by Stanley Goode of Santa Ana, census supervisor for Orange and Riverside counties, showing that Newport Beach, with 2200 population has enjoyed the fastest growth of all Orange county cities since 1920.

In 1920 this city had 894 people and in 1930 only 445, the official figures show. The gain in the last 10 years was 146.08 per cent, just a little over one per cent higher than Fullerton, which had shown the greatest gain among cities incorporated in both 1920 and 1930, until the Newport count was announced today.

In spite of the satisfactory gain in percentage, it was pointed out that the full growth of the Newport harbor district will not be shown until the population of Costa Mesa is announced. Many who work in Newport Beach live in Costa Mesa, it is stated, and the 2200 figure includes only those living within the city limits.

It also was stated that the population as of April 1, which is the date the federal figures are based on, does not give a complete idea of the residents here, as there are from 10,000 to 12,000 actually residing here in the summer months. Water, gas, light and phone users here indicate a much larger population than 2200, and many who have these utilities turned on the year around were counted in Los Angeles and other places on April 1.

Many cases were revealed by the Newport Harbor Chamber of Commerce in which people actually had established their homes here during the progress of the enumeration but had been counted elsewhere, because they had happened to be elsewhere on April 1.

## PLANT RUINED BY OIL FIRE

Reminiscent of the swirling smoke screens laid down to protect ships or troops in war time, these huge columns of billowing smoke all but obscured an oil plant at McCook, Ill., when a gasoline truck burst into flames and the ensuing explosions ignited a dozen tanks. Loss was estimated at \$250,000. Thirty employees fled to safety.

## ORANGE COUNTY ADVERTISING EXPENSE IN 1929 AMOUNTED TO \$34,798, REPORT REVEALS

Of the total sum of \$2,107,672.19 spent last year by 50 counties in California for advertising and promotion, Orange county spent \$34,798, it was announced today in a report just released by Ray L. Riley, state controller.

A check with county officials revealed that the total expended was \$36,446.75, the amount reported by the state executive not including an item of \$1641.54 for the exhibit building at Irvine park.

The total spent by the 50 counties last year was an increase of nearly half a million dollars over the previous year, and the amount is expected to be further increased this year. The Orange county budget this year includes \$40,000 for this purpose.

Riley is of the opinion that county advertising is being stimulated by newspapers which are continually urging the exploitation of city and county resources. "The county payments for advertising included memberships in tourist associations, booths and exhibits at district and state fairs, donations to chambers of commerce and printing of pamphlets and other literature for free distribution to prospective home-seekers," he said.

Recognizing the importance of county advertising, the last legislature enacted a law under which boards of supervisors could levy a tax specifically for advertising purposes, not exceeding four cents on every \$100 of property valuation. The money thus derived can be spent, under the law, for exploiting or assisting measures "designed to preserve or develop the agricultural, horticultural, viticultural and water resources of the county."

The largest item on the list of expenditures last year by Orange county, according to the statement of expense prepared by County Auditor W. C. Jerome, is for newspaper and magazine advertising. The most recent appropriation made by the county, authorized at the meeting last Tuesday, was for a page advertisement in the magazine of the California Newspaper Publishers' association. This appropriation, made on the motion of Supervisor John Mitchell, provided \$250, and was made at the request of Justice Kraemer, publisher of the Orange News. Ben Read, representative of the publishers' association, appeared before the board with Kraemer. Another recent appropriation was for a page of advertising in the annual publication of the California Real Estate association. The county publicity agent is V. D. Johnson, of Orange.

The list of expenditures last year shows that fairs, orange shows and other events received a goodly portion of the total. The summary of expenditures of the advertising fund for last year follows:

Salary, manager of publicity department, \$1350; expense account, manager publicity department, \$450; newspaper and magazine advertising, \$9874.09; stenographers, \$774; publicity representative, \$300; membership Los Angeles Chamber of Commerce, \$100; Stationery and postage, \$421.83; pictures, \$165.39; emergency fund, \$944.52; exhibit building, Irvine park, \$1641.54; county booklets, \$1511.25; California Valencia Orange show, \$3500; National Orange show, \$1000; California State fair, \$1900; Southern California fair, \$425; Los Angeles County fair, \$1233.13; Orange County fair, \$3500; International regatta, \$500; tournament of lights, \$500; National Music week, \$1000; Orange county dahlia show, \$250; California Development association, \$1000; Navy day celebration, \$100; All Year club, \$2000; American Legion Armistice day, \$2000; total, \$36,446.75.

A new direct long distance telephone line has been opened between New Orleans and Cincinnati. This will provide faster telephone service between the two cities.

## LIFT HOLY JIM CREEK BAN ON TROUT FISHING

An order was received yesterday by County Clerk J. M. Backs from the division of fish and game of the state department of natural resources, opening certain trout streams in Orange county which were closed during 1929.

The order, which was signed by Fred G. Stevenot, director of the department of natural resources, and approved by Gov. C. C. Young, opens Holy Jim creek and its tributaries from the intersection with Trabuco canyon creek. Orange county fishermen now may whip this stream, which should produce some good fishing after being closed last year.

Copies of the order were posted at the south and west entrances of the court house by Backs in accordance with instructions to have the order posted in two public places in the county. The order was signed April 15, but the letter announcing the opening of the stream was not written until May 12.

Fishing conditions throughout Southern California have started to improve, according to a report today by Seth B. Sallsbury, manager of the outing bureau of the Auto Club of Southern California. He says reports from all districts are to the effect that waters are clearing fast, and that as the moon is on the wane, the best fishing since the opening of the season should result the coming week.

He reports possibility of finding good fishing on the Sespe, San Gabriel river, Deep creek, Bear creek, Arrowhead lake and Big Bear lake. High lakes in the Bishop-Mono lake district are still frozen over and probably will not thaw out before the latter part of May, Sallsbury's report says.

"The road to Mammoth lakes is still covered with snow, but should be open by May 20, reads the report. "Fishing has been reported the past several days in Hot creek, headwaters of the Owens river at Thompson's ranch, gorge of the Owens river, Benton's crossing on the Owens river, Rock creek, Convent creek, Bishop-Mono lake, Independence creek and Lone Pine creek. Good fishing has been reported in Convict lake, June lake, Gull lake, Grant lake and Silver lake.

"It will probably be the last week in May before some of the high lakes reached only by trail will be accessible, as some of these lakes are still frozen over and trails are still covered with snow.

"Water is clear in the Kern river and should continue so until the hot weather melts the snow at the headwaters, causing the stream to raise and get muddy. Excellent fishing has been had the past several days in Dome creek."

## SCHEDULE FOR FORESTRY TOUR IS ANNOUNCED

At nine a. m. tomorrow the caravan conveying persons desiring to make the annual forestry tour will assemble at the entrance to Irvine park for the start of the all day trip over the Santa Ana mountains. The tour originally was scheduled for two weeks ago, but rains just prior to that time made it advisable to wait until the trails had dried up.

After leaving Irvine park the party will proceed up Black Star canyon to the top of the ridge, where a similar party from Riverside county will join the caravan. The entire group then will go to the ranger station, where a stop for lunch will be made. County and forestry officials will be introduced to the party here and short explanatory talks relative to the work that is being done will be made.

The next stop will be at Santiago peak, more familiarly known as Saddleback. This peak is 5680 feet above sea level. During the trip forestry plantings and fire breaks constructed by the county and forestry service will be inspected. The party expected to return to Santa Ana about five p. m.

The tour is under the auspices of the agricultural extension service, the Orange County Farm bureau and the Orange County Forest Protective association.

## BREAKS JUNIOR RECORD

Not satisfied with having broken the junior record for a flight from New York to Los Angeles by flying the distance in 34 hours and 3 minutes, Frank Goldsborough, 19, immediately got busy and made a return flight. Goldsborough is shown here with the plaque and cup he received upon landing at Los Angeles after clipping 13 hours and 57 minutes off the old junior record, held by Dick James.

## DEADLINE FOR BURNING GRASS SET BY RANGER

That persons desiring to burn over any plots of ground or fields should do so at once before the grass becomes so dry that it constitutes a fire hazard, was the warning issued today by Joe Sherman, state forest ranger, who, through the co-operation of a county has been assigned as a year round worker in fire prevention and control in Orange county.

Sherman, who started his duties May 1, has established his headquarters in Orange, at 594 North Glassell street, and will have charge of the work outside of incorporated cities and outside the Cleveland national forest. He stated today that he planned to co-operate fully with all duly authorized fire agencies in the county and pledged his support to all who needed his services. Sherman asked that publicity be given his phone number, Orange 1113.

Permits must be obtained from an authorized fire agent before any fires are started, Sherman pointed out in commenting on fires. Fire wardens and his office are prepared to issue these permits. The ranger pointed out that the fire season probably would not begin until June 1 this year, due to the late rains. The period between that time and November 3 is expected to be the most dangerous for grass and brush fires.

Sherman is co-operating with the Orange County Forest Protective association, and according to the farm advisors' office, is scheduled to act as instructor at training school sessions for that organization's crew leaders.

## Wise Mother

See James and Terence, my young sons of Mrs. M. Murphy, 425 East 39th Place, Los Angeles, Calif. Their mother's experience shows what can be done to keep children robust. She says: "Since I found out how good California Fig Syrup is, I have kept some in the house. It always helps my boys. I give it for upsets or colds."

When your child's breath is bad; tongue is coated; or he is head-achy, bilious, feverish, without appetite or energy, give him a little California Fig Syrup. See how its gentle cleansing helps a child. Appetite, digestion and assimilation improve. Stomach and bowels are toned and strengthened.

The genuine always bears the word California. So look for that when buying. Seven million bottles used a year proves its merit—Ad. "My little daughter is the healthiest girl I know," says Mrs. A. Priestley, 5535 So. Central Ave., Los Angeles, Cal. "And I want to give credit where it is due."

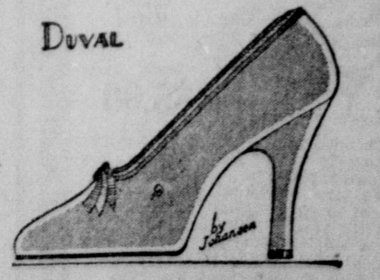

"Bertha was constipated several years ago and I gave her California Fig Syrup. It helped her so wonderfully that I have used it ever since for all her upsets or colds. It has kept her strong, energetic, rugged."

One of the pleasant events in the history of the Thimble club was the dinner given yesterday by Mrs. W. A. West on West Seventeenth street. Baskets of roses and spicy carmenes added their charm to the home, and were used to adorn the tables where the delicious dinner was served. The guests dined after the noon hour on the afternoon to work on pillows, quilts and other much needed articles for the veterans' home at San Fernando, and completed many things which will be sent to the home at once.

Among those present to share Mrs. West's gracious hospitality were Mesdames Genevieve Hickey, Margaret Dickinson, Mary Moore, Elizabeth Marshall, Alta Marsile, Clara Gerkin, Alice Rogers, Elva Selva, Margaret Selva, Florence Watson, Fanny Westgate, Olive Seba, Eunice Fox, Gertrude Carter, Mabel Cummings, Lottie Brookbanks, Lois Mandy, Bessie Miller, Ina Cope and Juanita Seidel.

## Will See Passion Play On European Trip

Mrs. Anna M. Ott of 610 West Third street, completing plans to sail from Wilmington Sunday for Europe, traveling via the Panama canal. Her immediate destination is Sweden where she will make an extended visit, and attend the international exposition to open in Stockholm next month. A visit to Oberammergau and the Passion Play will be an outstanding feature of the journey, and various other European points of interest will be visited within the three months that Mrs. Ott expects to be gone. On her homeward way she will land in New York and return to Santa Ana by way of Canadian lines.

Mrs. Ott's earlier plans were to sail last Sunday, but injuries sustained in a recent automobile accident made it unwise for her to travel quite so soon, so she changed her bookings to the later date, although it necessitated traveling on a smaller vessel.

## Original Program Is Enjoyed by Comus Club Members

There were several special dances introduced into the program of last night's meeting of the Comus club in the Orange Woman's clubhouse, and the hosts, Mr. and Mrs. J. H. Daniger and Mr. and Mrs. Paul Ragan, were complimented upon the originality of plans made for their guests' entertainment.

These clever dances included the always popular "slipper dance" in which each prince found his Cinderella by fitting her foot with the dainty evening slipper which he managed to retrieve from a heterogeneous pile placed in the center of the ballroom floor. Equally gay was the doll dance in which each feminine dancer was presented a doll which she passed at random to one of a waiting group who automatically took her place on the dancing floor.

An excellent orchestra added to the charm of the evening, and a large crowd was present to enjoy the hospitality of Mr. and Mrs. Ragan and Mr. and Mrs. Daniger.

## Many Attend Legion Auxiliary Dinner Last Night

The old song about feeding a man will win his attention pertains to women as well, at least to members of the American Legion auxiliary, who turned out in large numbers last evening at the Legion hall to share pot luck dinner. The success of the affair was so paramount that Mrs. Agnes Struble, president, announced that another pot luck dinner would be the program for the next meeting of the unit on June 5. At that time members are requested to bring prospective members, a suggestion of Mrs. Myrtle Cain, membership chairman, who will not be satisfied until Santa Ana unit tops the membership roll for the state, San Diego unit being the only one thus far furnishing competition.

Mrs. Cain stated that with one hundred more members Santa Ana unit will score.

At the meeting following the supper last evening Mrs. Bernice Knights, chairman of the poppy sale to be held on Saturday, May 24, asked for assistants on that day. The auxiliary girls will be on the downtown streets at 7 o'clock to sell their poppies, symbols of those men and women who gave their lives in the great World war. The money derived is to be used for welfare work among needy veterans and their families.

The unit voted \$20 toward the state child welfare fund.

Mrs. Nora McCalla, who was in charge of the auxiliary booth at the Boy Scout jamboree, announced that \$5 was made at the affair for the Scouts.

Auxiliary members are anticipating an unusually large and interesting meeting on May 23, when the national auxiliary president, Mrs. Charles MacCrae, will be the guest of honor at a luncheon at St. Ann's Inn. The entire district has been invited and inasmuch as Santa Ana has been chosen as the place for the affair in lieu of Los Angeles, it is hoped that every auxiliary member will avail herself of the opportunity to become acquainted with their very interesting leader.

Mrs. Marie Scovel, who is in charge of the decorations for the luncheon, has asked that members bring flowers to her home, 1800 Bush street, the day before the event.

At last evening's meeting the proposed by-law to pay the unit secretary and treasurer was voted down by a large majority, inasmuch as the auxiliary is a welfare organization.

## Musical Given Last Night Was Pleasant Occasion

A success both financially and socially was realized last evening by the Church of the Messiah through the musicale and social hour held in the parish room at 7:45 o'clock.

The opening number was Rachmaninoff's Prelude, played by the talented young pianist, Duncan Harnois. Following was a group of part songs by a mixed quartette including Mrs. Signe Best, Miss Helen Winchell, Charles Wollaston and Frank Lansdown, the latter who was in charge of the program. "Drink To Me Only" was a beautiful solo rendered by Miss Helen Winchell.

Especially unique was a group of songs by Mrs. Signe Best, all composed by her.

Harriet Morris favored with a number of readings.

Following another Rachmaninoff number by Duncan Harnois, the waltz selection was sung by the mixed quartette.

Dainty refreshments and a delightful social hour were enjoyed by the large group present.

## New Officers Elected For Garden Section

Mrs. W. E. Watkins was elected as leader of the Garden section of the Ebell club, when members met yesterday for the election of officers. Mrs. Watkins' cabinet is to consist of Mrs. Clyde Bach, secretary and treasurer; Mrs. J. E. Paul, first vice leader; and Mrs. A. H. Farrar, second vice leader.

The members of this group are feeling especially pleased with the success of their recent flower show, when they received exceptional returns from the annual event.

As this was the last meeting of the section for the year, plans were made for the flower show to be held in the fall.

## Travel Section to Hear Talk

The Ebell Second Travel section will meet in the auditorium of the clubhouse Monday at 2 o'clock. W. M. Clayton will deliver his lecture, "Riding Skyline Trains," illustrated by photographs taken in the most interesting and scenic portions of the United States.

James Nuckolls will sing and there will be two numbers sung by a chorus conducted by Mrs. Harry Hayes.

## Tea and Golf Party Are Unique Event

Carrying out a charmingly spring-like color scheme of yellow and green, Mrs. Charles Blackburn and Mrs. L. E. Mathews entertained with a golf party and tea yesterday at the Tom Thumb golf links.

Guests had been asked to spend the afternoon in the home of Mrs. R. I. Mathews and on arriving were presented with caps in either yellow or green. They were then taken to the golf links where a tournament was staged. Mrs. Russell Caldwell made a low score of 64 and was awarded the prize.

Following the game guests went to the home of Mrs. Blackburn, 505 Cypress avenue, where tea was served. Decorations for the tea table were carried out in green and yellow and Mrs. Caldwell and Mrs. W. G. Clark presided at the tea urns. Tall yellow tapers were set in green candle holders and yellow flowers centered the table.

Those present were members of the Dorcas club of the First Methodist church and included in the group with the hostesses were Mesdames Fred Lazenby, W. F. Kistinger, R. W. Dietrich, J. H. Turton, H. E. Irwin, W. G. Clark, R. D. Gardner, George A. Warm, S. S. Vogt, H. T. Witt, Russell Caldwell, C. C. Fuller, Harry Wetherell, B. Barnett, A. O. Kittleson and L. A. Halderman.

## The MIXING BOWL

by ANN MEREDITH

### Butter, Milk and Egg Wisdom

It is poor business to economize on milk, butter and eggs. If the living costs of two families, one using plenty of the mentioned products, the other skimping on them, were to be averaged for a year the skimping family may have saved a few dollars on food but they will probably have spent double that doubtful saving on doctor bills, and still be "in the red."

Health is not as easily refurbished as a marred floor; scratches can be taken out of the floor but not out of injuries to heart, stomach, or other vital organs resulting from a diet low in the foods we need for healthy growth.

When eggs are low priced, buy quantities and put them away in a preservative (water glass solution for instance), and have plenty to use when the price makes them prohibitive. Milk is safer today if pasteurized, so use evaporated milk when fresh milk is not available, replacing the C vitamin by vegetables or fruits for that meal. Butter is butter! Use enough of it and save somewhere else.

This is just a suggestion for the filling. Minced crab or oyster meat mixed with mayonnaise and finely minced olives is another, and the ever useful tuna fish mixed with mayonnaise and chopped hard cooked eggs isn't a bit hard to take.

It is no longer necessary to go to the trouble of cooking a chicken when salad or sandwich filling is needed. The white meat of chicken put up in glass is now in every grocery store and while the cost may seem a bit high at first hearing, if you will stop to consider the waste weight in the chicken cooked at home, the time and cost of cooking, you will readily see the economy of buying this ready-cooked product occasionally.

## HOUSEKEEPING IS DEEMED A DANGEROUS OCCUPATION

SACRAMENTO, Calif., May 15. (UP)—Speaking of dangerous occupations, consider the humble housewife.

Crossing a street in heavy traffic is a hundred times safer than cooking over a gas stove, sweeping the floors, or mopping up the bathroom.

Injuries in the home account for the largest number of non-fatal accidental injuries in the United States, and for a large proportion of such injuries in California.

According to facts presented to the State Board of Health, approximately 46 per cent of the injuries caused for various nursing organizations arise out of domestic pursuits, 45 per cent occurred in public places and 9 per cent while the injured person was at work.

"Watch your step" might well be the motto of all who work in the home, as nearly half the domestic injuries were due to falls, on or down stairs, over chairs, in bathtubs (often on a cake of soap), slips on rugs, adventure

the food chopper, mix to a soft paste with mayonnaise and season to taste with minced chives, salt and pepper. Fill the cavity, put back the end, anchor it with a couple of toothpicks and lightly toast the rolls to crisp them.

Just think how delicious these crusty little rolls will be when the hungry horde attacks the picnic basket after a brisk swim!

Ann's Cook Book, leaflet III, is at your disposal this week, free of charge. If you will send a stamped, self-addressed envelope for your copy. The leaflet features recipes for YEAST BREAD and is one of the 12 leaflets to be offered during the next 12 months.

with the domestic stepladder, and falls out of windows.

Next came burns and scalds. In 1929, 28 per cent of home injuries receiving nursing care arose out of the stove, grate, lamp and match hazard. The humble tea-kettle, wash boiler and wash tub played their part in causing injury in the home.

The unguarded or misused kitchen knife accounted for 12 per cent of the non-fatal injuries in the home. With all the progress made in modernizing the home, especially kitchen equipment, there still occurs a lamentable toll of injury and death.

"The time has come when the domestic injury hazard should be submitted to examination in the same spirit and with the same thoroughness with which hazards in industry and public places have been approached," the report said.

Of the injuries in public places, the automobile accounted for 45 per cent, falls and slips on the street resulted in 28 per cent and street car and railroad injuries, 7 per cent.

Recent Dinner Is Birthday Event

Mrs. Herbert Hill, 504 Wellington street, entertained with a family dinner recently, in observance of her husband's birthday. Ap- pointments were carried out in a most attractive color scheme of blue and pink. The service was blue crystal and Cecil Brun- ner roses were placed in blue crystal baskets. Tall pink tapers lighted the smartly appointed table.

A birthday cake held the ap- propriate number of tiny candles and those asked to share the happy occasion were Mr. and Mrs. Jabe Hill, Mr. Hill's parents, and Mr. and Mrs. S. J. Hales, Mrs. Hill's parents.

## WALKER FILM HAS SNAPPY DIALOGUE

"Say," complains the buxom Winnie Lightner, "for two weeks you been trying to give me the bum's rush!"

"Nix on that!" comes back Joe E. Brown, dub prize fighter and particular fancier of slender girls. "I ain't no bum and I ain't rushin' you!"

And the merry fight is on again—a wise-cracking battle that makes a continual laughing roar of "Hold Everything," the Warner Brothers all-color Vitaphone production which is now playing at Walker's State theater.

Winnie is the rollicking man-tamer who made such a sensational hit in "Gold Diggers of Broadway," and in "Hold Everything" she starts where she left off in the former production. The picture is a positive riot.

And when it comes to handing out laughs, Joe E. Brown "ain't no bum." He is one of the funniest comedians on the screen today.

## 'ROGUE SONG TO' END RUN TONIGHT

Lawrence Tibbett, Metropolitan Opera star, who makes his screen debut in "The Rogue Song," which has been playing all this week at the Fox West Coast theater, sings for the last time in Santa Ana today in his first picture. The show completes its run here tonight.

Beautiful in color, with a daring plot that will interest from start to finish, "The Rogue Song" is Metro-Goldwyn-Mayer's first attempt at the operatic, and Tibbett is the first opera star to appear in talking pictures.

Although he sings a number of songs that border on opera, he also is heard in several simple little numbers and many popular love songs.

Catherine Dale Owen plays the part of the princess in the show. The plot concerns Yegor, tribal chieftain, and his love for a prin-

cess whom he meets and then kidnaps. Every scene is in technicolor. Laurel and Hardy, the famous Metro-Goldwyn-Mayer comedy team, have important roles in the show.

"Cannibal Capers" a Disney Cartoon with sound and a Fox Movie-tone news reel also are shown.

Plans will be discussed for the possible formation of a vaudeville troupe within the Mickey Mouse club's membership, at the regular Saturday meeting of the club, to be held at the Fox Broadway theater at noon tomorrow.

Riverside Mickey Mousers entertained the local club last week with several vaudeville numbers and all made a big hit with the members here.

"The Iron Horse," great picture depicting the hardships of building the first railroad system across the United States, and which includes Indian fighting and much good comedy, will be the picture shown to the club, while a new Mickey Mouse cartoon and another episode of "The Jade Box" also will be shown.

Richard Dix, in the role of an electrician who masquerades in high society, comes to the Fox Broadway theater today in the all-talking comedy-romance, "Lovin' the Ladies." It is the star's second Radio picture, an adaptation of the successful stage play, "I Love You," by William Le Baron, vice president in charge of RKO production.

Instead of the traditional heroine, Dix is involved with four women. They are Lois Wilson, formerly co-starred with him; Rita La Roy, RKO Pictures' "It" girl; Renee Ma-cready, English actress, and Virginia Sale, sister of Chic.

# Late News From Orange County Communities

## P. E. Criticised For Attitude On Imperial Highway

### ORANGE COUNTY OFFICIALS WILL MEET WITH C. C.

YORBA LINDA, May 16.—Several critics of the Pacific Electric railroad in its attitude toward the plans of the Imperial Highway association in trying to get part of the railroad right-of-way through Yorba Linda, George Kellogg, secretary of the association, pointed out to members of the Yorba Linda Chamber of Commerce at their regular luncheon meeting Thursday that it was not only Yorba Linda's big chance, but that it was a real chance for the railroad as well.

Referring to the statement of Mr. Thomas, general agent for the executive committee of the Pacific Electric, that the railroads were expecting a reversal in methods of traveling, more people using the railroads because of the congested and dangerous condition of the highways, Kellogg said: "This is the most detrimental expression from the P. E. that could have been made. If the railroads do not take a more progressive attitude, they are doomed. The biggest step forward the railroad could make would be to help put this road through and then put their busses on it. In years to come we expect to be a second Beverly Hills and highways will bring us the development we want, but not the railroad. We do not want to see a four-track railroad in this valley, bringing industrial development, and in fact we might be perfectly willing to junk the one we have."

Highway Superintendent County Engineer Nat Neff was present at the meeting to advise as to further action in the matter, and said that while he believed it entirely possible to condemn the right of way if it seemed necessary, that there might be another way in which the matter could be arranged.

President F. W. Stahler presented the situation to him and said that they wished to be guided by the county officials.

Neff stated that local sentiment should not be allowed to rule, but that this should be considered as an engineering problem alone, for the road would be a major highway and important in that it would be the logical connection for an international highway from Canada to Mexico.

Arrangements were made for District Attorney Z. E. West Jr., Supervisor Schumacher and Nat Neff to be present at the next meeting, June 5, when some definite plan of action will be decided on.

In discussing the matter the fact was brought out that all Motor Transit busses in Fullerton were to be handled at the P. E. station soon and that it was probable that this arrangement would be followed in Yorba Linda.

J. N. Roundtree announced that the ball team would give a dance at the Masonic hall Saturday evening, the proceeds to be used for caps and sweaters, and thanked the merchants for their liberal donations to the team.

BUENA PARK, May 16.—An evening in Doll Land was spent by a large audience in the Grand avenue grammar school auditorium Thursday evening, when the Lindbergh school presented the operetta "The Land of Dolls" under the direction of Miss Mildred Connor, music and art director.

The first act depicts the story of two little girls Minnie and Bessie, who were disobedient and wished to become dolls so that they would not have to mind their mother. The fairy queen overhears their wish and takes them to the Land of Dolls, where in act 2 they decide they would rather be good children than to be turned into dolls.

Mrs. J. M. Hale and Mrs. M. Parker, of Fullerton, were present at the meeting also.

It was stated that Logan Jackson and James Pearson, candidates for sheriff, had answered the questionnaire sent out by the W. C. T. U. and that the organization felt that they were dry men.

### SCHOOL COSTS OUTLINED FOR FULLERTON C. C.

FULLERTON, May 16.—The Fullerton union high school auditorium when completed will involve an expenditure of more than \$300,000, it was announced to the board of directors of the Fullerton Chamber of Commerce at noon yesterday in Ryan's cafe by S. J. Tuffree, recently elected as a member of the board of trustees of the high school. All members of the high school board were guests of the chamber.

Tuffree declared that the board would have to draw on the 1931 and 1932 finances to meet the expenses for the coming year in order to complete the building program. For this reason, Tuffree stated that the board is curtailing the budget in many other departments "to fit our pocketbook."

A detailed explanation of the budget program was made by W. J. Travers, member of the board for 20 years, who stated that the program would involve the division of approximately \$600,000 in the various departments of the high school and junior college.

Travers stated that of the total budget of \$600,000, approximately \$200,000 comes from outside the district, from the state and from other districts. Of the remainder approximately \$200,000 comes from taxes on oil properties within the district, leaving only \$200,000 for the district itself to pay as a tax on real property, which means approximately \$20 per capita.

Other members of the board, Chairman J. A. Prizer, Arthur Staley and Albert Launer also spoke regarding the school finances.

### CAMPAIGN ON WEEDS OPENED IN SEAL BEACH

SEAL BEACH, May 16.—The city council last night granted the committee appointed by Mayor Wilson at the last meeting to investigate the matter of obtaining access to the ocean through the private fenced lands at East Seal Beach, more time to consider the proposition. The committee reported that two councilmen, Snider and Putnam, had met with City Attorney Jacques and had gone into the matter, which disclosed the fact that the land was owned in fee by the Ord Land company, but that the Phillips-Ham- baugh Investment company holds an option with practically eleven months to run. Attorney Jacques stated that he talked with the Ord Land company and representatives and that they were willing

to co-operate in any way possible, but that he had been unable to meet with representatives from the investment company up to this time. He stated that he believed passage ways could be obtained, however, and asked for an extension of time.

H. E. Burns, lessee of the western portion of the tract, stated that the property he had under lease was open to residents of Seal Beach for bathing purposes at any time, which he believed would relieve the situation for a time.

A resolution was adopted declaring weeds on parkways, streets and alleys a public nuisance, and ordering the same to be cut. Owners of property will have 30 days in which to object to the notice to destroy weeds. After the time expires the city will cut the weeds and assess the charge to the property owner.

A communication was read from P. A. Stanton, president of Bay-side Land company, stating that his company was willing to meet with the council, and co-operate in the opening and widening of Central avenue from Fifth street west to the Coast highway. The city attorney was instructed to make arrangements for the meeting. Court action regarding the

condemnation of necessary property for this improvement was started by the former city attorney, who filed suit in the Orange county court. Attorney Jacques said he believed the matter could be peacefully settled before the case was called for hearing.

The committees on the Fourteenth street drainage system and the straightening of Electric avenue at the Anaheim Bay bridge were granted more time to investigate the matter.

The council accepted a new power schedule as suggested by the Southern California Edison company, which will save the city nearly \$40 a year in power bills. The bonds for Street Superintendent Slayton, Chief of Police Ott and Municipal Judge Brown were accepted by the board. The bonds for the former police chief and street superintendent were cancelled.

H. E. Burns asked for permission to erect a small dance platform and a tea room on his camp ground at Anaheim Landing. The matter was referred to the building committee for investigation.

You can't go wrong in making biscuits if you add the milk

only a little at a time

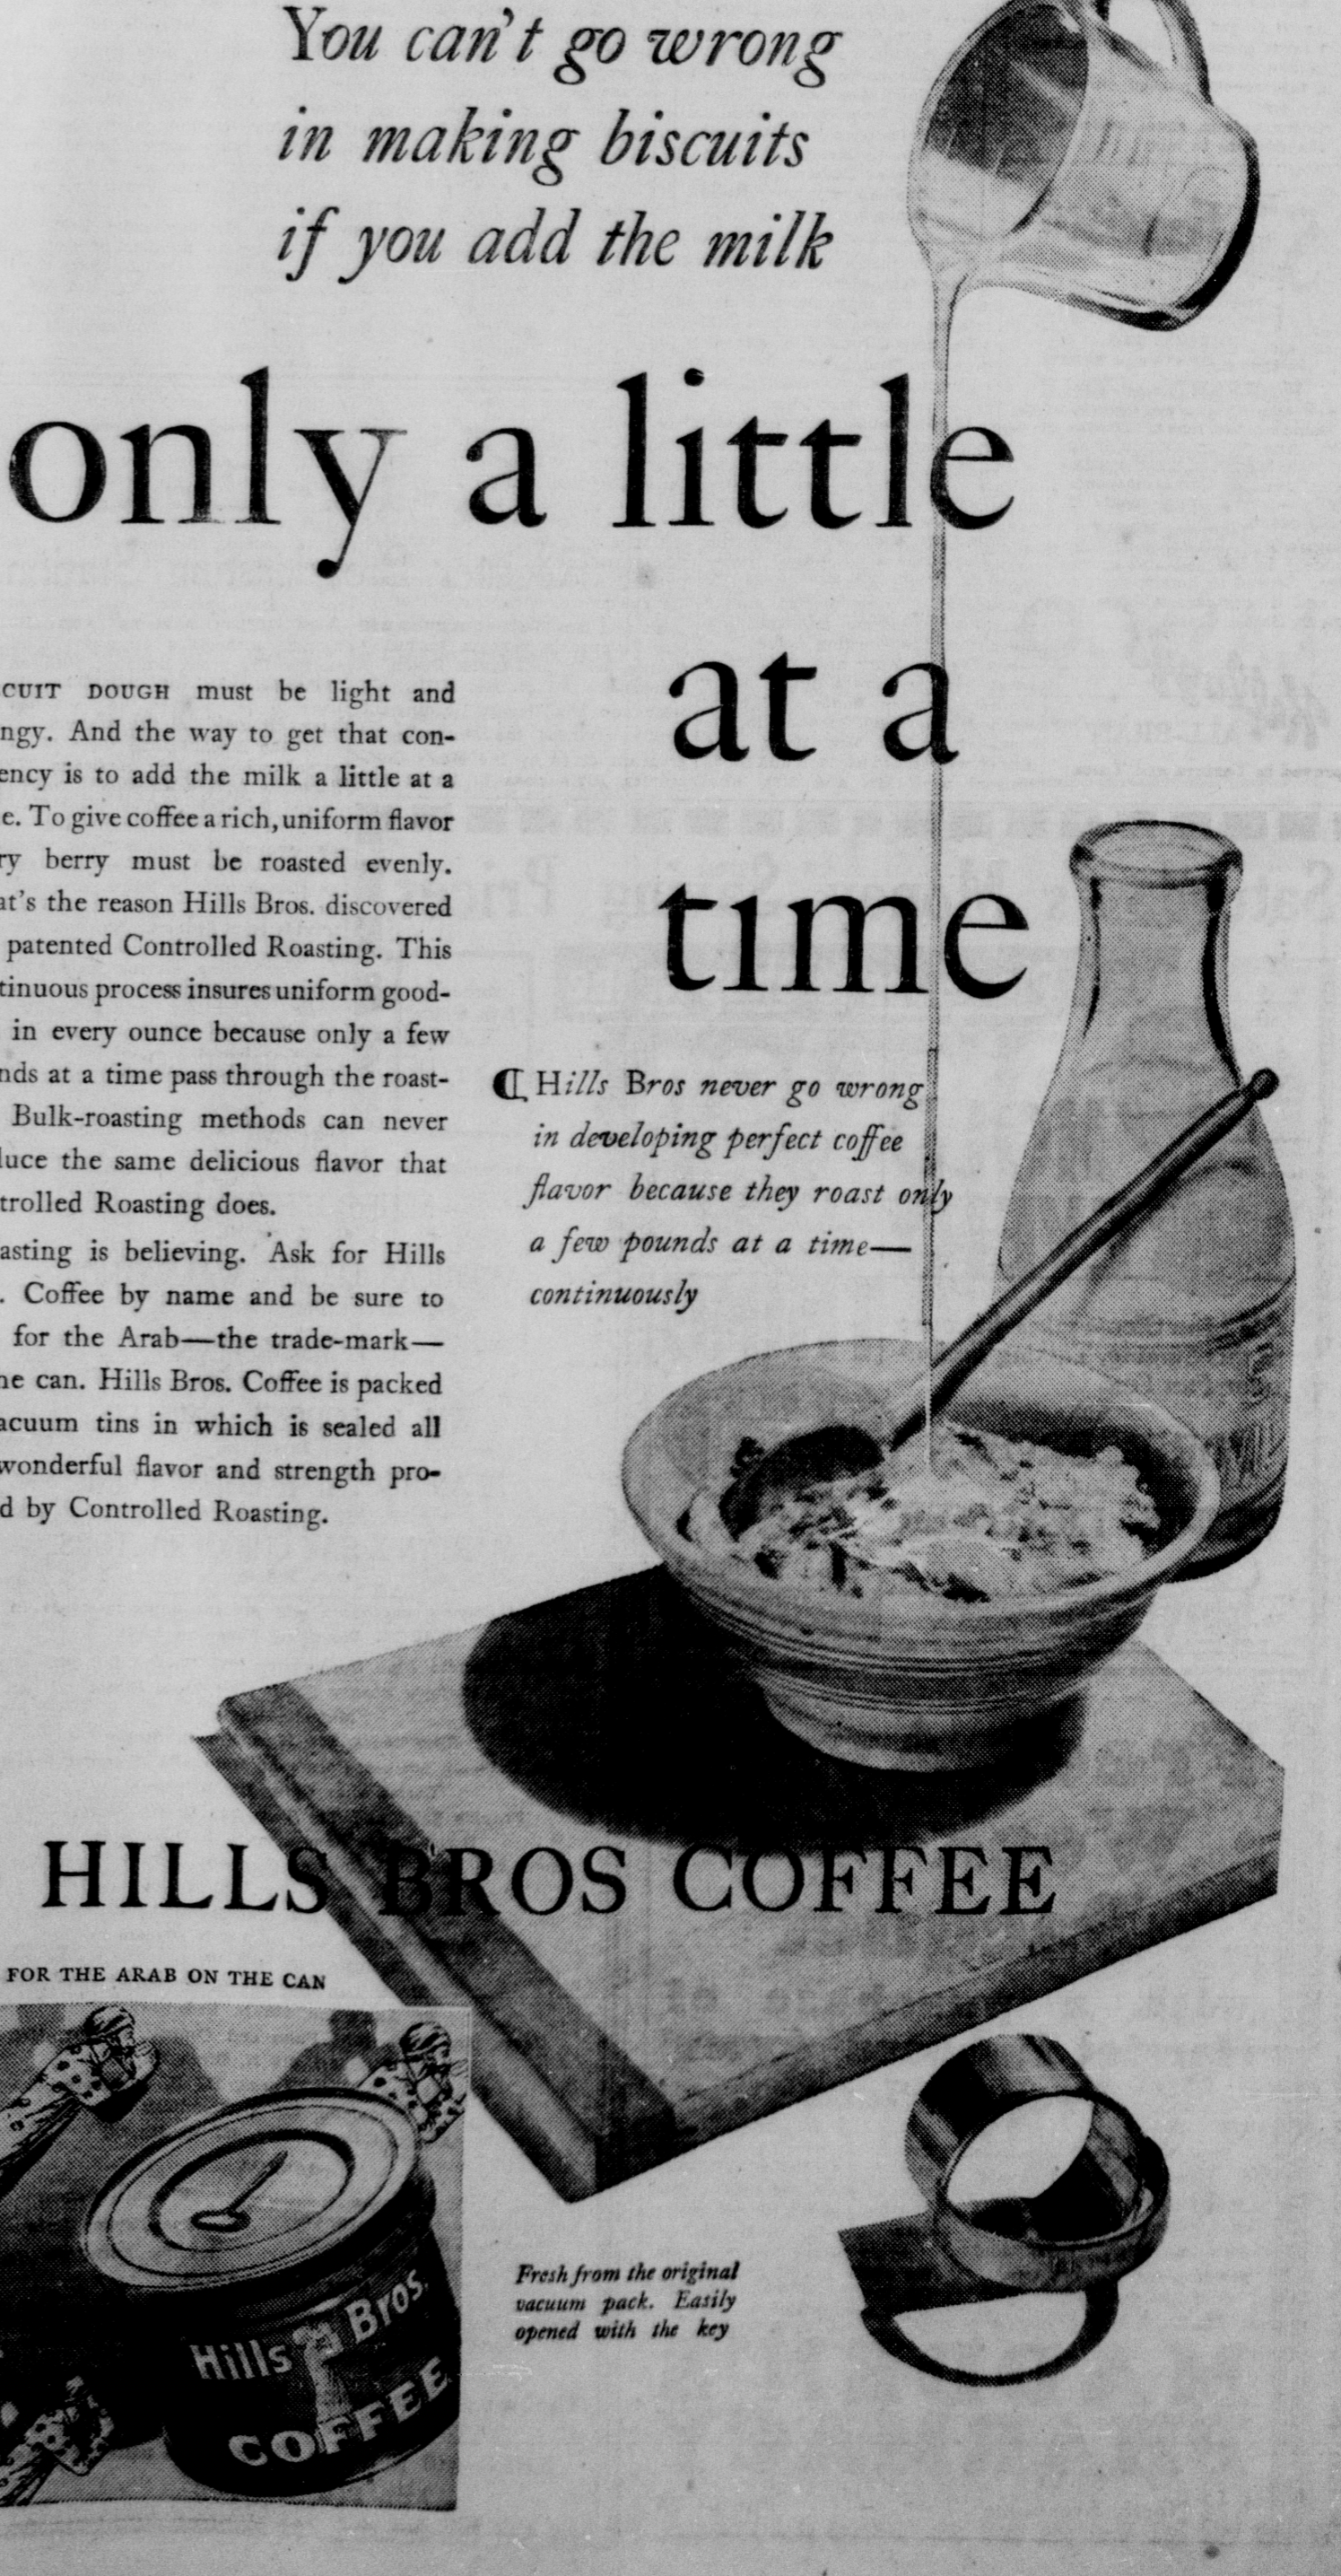

Biscuit Dough must be light and spongy. And the way to get that consistency is to add the milk a little at a time. To give coffee a rich, uniform flavor every berry must be roasted evenly. That's the reason Hills Bros. discovered and patented Controlled Roasting. This continuous process insures uniform goodness in every ounce because only a few pounds at a time pass through the roasters. Bulk-roasting methods can never produce the same delicious flavor that Controlled Roasting does.

Tasting is believing. Ask for Hills Bros. Coffee by name and be sure to look for the Arab—the trade-mark—on the can. Hills Bros. Coffee is packed in vacuum tins in which is sealed all the wonderful flavor and strength produced by Controlled Roasting.

## MAKES ODD DEAL FOR AUTOMOBILE

NEW YORK, May 16.—(INS)—A Brooklyn man recently is reported to have made a deal with an automobile agency that his friends are hailing as a masterpiece of financial genius.

The man took his four year old car to a dealer to be appraised for a trade-in value. The price of the new car was \$1400. He was offered only \$200 for his old car.

"Only \$200?" he asked in amazement.

"You're fortunate to get that much," replied the dealer. "We will have to sell it for about \$50 and probably will have a difficult time in selling it."

"Tell you what I'll do," the motorist said at length. "I'll take the allowance of \$200 on the old car,

## SEEKS GLIDING RECORD

Bad luck doesn't deter Jack Barstow, 24-year-old San Diego, Calif., glider pilot, shown above with his wife and baby. First, he set a new world record by gliding for 15 hours and 13 minutes, but it was unofficial as he had no barograph aboard. Then he started out for an official record and, after being up eight hours, crashed. Now he plans to try again. The official record is 14 hours and 10 minutes, held by a German glider.

## TALBERT

TALBERT, May 16.—Mr and Mrs. Harold Swift have purchased a new home in Huntington Beach and are arranging to move to it with the close of school the first of June.

The 11-year-old daughter of Mr. and Mrs. Ross, of Talbert, was taken Wednesday to the county hospital to remain for treatment. The mother has been a patient in the hospital for some time.

Mr. and Mrs. Robert Harper and daughters were entertained at dinner on Sunday in the home of Mrs. Harper's brother, Ernest Gislis and wife.

Plans for making some changes in the present school arrangement of the Fountain Valley district have been discussed by the school board and interested patrons. Recently the majority of the Mexican population in Talbert moved up to Juarez, the Mexican village north and east of Talbert and as it is some distance from the school, there was talk of moving the Mexican school to the settlement and putting in teachers there. Upon advising with the proper authorities it was found that a fire-proof building with an estimated cost of \$30,000 would have to be built, so the issue has been dropped for the present.

At the present time there is an attendance of 119 Mexicans, 70 Japanese and 48 American children in the Fountain Valley school.

The funeral of Mrs. Anna L. Eymann, of this place took place Tuesday afternoon from the Adventist church in Santa Ana and was attended by relatives and friends from Talbert. Mr. and Mrs. Eymann had lived east of town for some time, having located in a house adjoining the home of their son-in-law and daughter, Mr. and Mrs. Frank Harper. Mrs. Eymann had been ill for five weeks prior to her death Friday of last week.

Mrs. Eymann is survived by her husband, three sons and three daughters.

# THE TINYMITES

STORY BY HAL COCHRAN—PICTURES BY KING

The farm house that was right nearby, was beautiful against the sky. "Oh, my, I'd like to live there," shouted Scooty. "I'd like to live there!" real hard the live long day, and then each evening, have some play. Just living in the open air would keep me feeling right."

Wee Clowny frowned and said, "Well, I would gladly pass the work right by. Of course I'd like to play around upon a farm like this, but working wouldn't be much fun, out in the fields, beneath the sun. And, if you worked all day, just think of hours of play you'd miss."

"Oh, my, but you're a lazy lad," snapped Scooty. "It will be too bad if, some day, you are forced to work. I don't know what you'd do. Why don't you realize that it is work that keeps one feeling fit. 'Tis well the world is not chock full of lazy lads, like you."

"Oh, stop the argument right now," cried Copsy. "Please don't

start a row. Let's rap upon the farm house door and find out who is here. The milkmaid said that we would get a drink of milk and I'll just bet that it will taste real wonderful. Come on, there's naught to fear."

They rapped upon the door real loud. A woman opened it and bowed and said, "Come in, you Tinymites. A dandy treat's in store. I'll bet you're hungry as can be. Well, now, just wait until you see what you're to get instead of milk. 'Twill be a whole lot more."

And, sure enough, when once inside the milkmaid met them. Then she cried, "I have a big surprise for you. We're going to have a meal. Hop right up to the table, quick. The Tines did, and thought it slick. Said Copsy, 'Gee, when we are through, how wonderful we'll feel.'"

CHICAGO, May 16.—(UP)—Wheat rose slowly and steadily on the Board of Trade today but at the close it was sharply higher. The higher cables with reports of a fair export demand combined with the smaller shipments from the Southern hemisphere rallied brisk support for the market. Trade broadened and shorts were on the defensive. Corn stayed with wheat all the way up and oats was unevenly higher.

At the close wheat was 2 1/2 to 2 3/4 higher, corn was 1 1/2 to 1 3/4 higher and oats was 1/2 to 1 1/2 higher. Provisions were steady for lard and steady to sharply lower for meats.

## THE NEBBES—Know Thyself

YESTERDAY  
RINT FOUND  
A LETTER  
THAT MRS.  
ROSLYN  
ACCIDENTALLY?  
DROPPED IN  
HIS CAR  
IT CERTAINLY  
IS GIVING HIM  
SOME CONCERN

IT'S FROM A FELLOW  
THAT'S A PIPE—AND  
IT'S NO BUSINESS  
LETTER OR IT WOULD  
BE TYPEWRITTEN

IT'S OPEN—I DON'T KNOW WHAT  
HARM IT WOULD DO TO READ IT—THERE  
MIGHT BE SOMETHING IN THERE I SHOULD  
KNOW—IM GETTING TOO DAMN INTERESTED  
IN THIS PARTY—IN THE FIRST PLACE  
I'M TOO OLD TO FALL IN LOVE AND  
IN THE SECOND PLACE I'M A  
BIG FOOL IN THE FIRST PLACE

"DEAR MRS. ROSLYN—  
I REINVESTED THE MONEY FROM  
THOSE BONDS THAT FELL DUE LAST WEEK  
AND BOUGHT 100 SHARES OF OSEER MAN-  
UFACTURING CORPORATION AT 228. THIS COMPANY  
HAS PATENTS WHICH ENABLE THEM TO MAN-  
UFACTURE AT HALF THE COST OF THEIR  
COMPETITORS. THEY HAVE CONTRACTS NOW  
THAT WILL KEEP THEIR WHEELS SPINNING  
FOR YEARS... THIS IS AS SURE  
AS TOMORROW..." IT WAS JUST A  
BUSINESS LETTER AND IF IT WASN'T  
WHAT BUSINESS WAS IT OF  
MINE? THIS WOMAN HAS ME  
ARGUING WITH MYSELF AND  
THAT'S ONE ARGUMENT YOU  
CAN'T WIN.

### NOT EXACTLY COURTEOUS

The other day the president and secretary of the Water Users' Association appealed to the Board of Supervisors for the privilege of having one of the engineers, who had been employed by their organization, appear before the Consulting Board of Engineers which has been employed by the Board of Supervisors, to go over data on the Santa Ana river conservation and flood control project.

The position which was assumed on the question by the Water Users' Association constituted a majority of the citizens when they voted upon the question. These engineers are paid by the money of the taxpayers of Orange County, and are employed by the Board of Supervisors. One naturally would have imagined that the Board of Supervisors, as their employers, and as representatives of the Water Users' Association and all others, and the supposed trustees of the tax funds of the county, would have gladly arranged such an opportunity for these men.

One could well suppose that they would say: "Of course, you will be afforded this opportunity. We will arrange it for you the first time these men again come into the county, and we will notify you of such time."

But, not so. With an indifference that seems almost monumental, they simply handed them the San Francisco address of one of the engineers, and if the engineer shows as great discourtesy and lack of consideration, he will elbow them off in some other way. For, after all, the Water Users' Association members are not the ones who employed the engineers directly. They look to our supposed representatives, the Board of Supervisors.

We believe we could mention the names of men in this county, who, if they made a request of the Board of Supervisors to meet and present data to the engineers, who had been employed by the Board of Supervisors, would have been assured by the Board that such meeting would be arranged.

We are not speaking of this to express surprise—we are not surprised particularly. It is the characteristic attitude assumed on most matters in respect to taxpayers, if those taxpayers do not agree that wisdom and justice lie entirely within the Board.

By the way, as we recall, when these engineers were first employed, it was declared that everything should be done in the open, and that groups and individuals would have abundant opportunity to present all facts and data to the engineers, and be notified of such times to do so. But this was some time ago, and probably has been forgotten in the shuffle of the board's politics.

We were wondering this morning what the Water Bonds Primer in the Los Angeles Times was going to do with the letter "Z." "Z," is for Zuluand, which Los Angeles will annex, would be good.

### WILLIAM J. LOCKE

Although the news of the death of William J. Locke does not come to his admirers with a great degree of surprise, since he has been ill for some time, it is even the more regrettable since there has been so much hope for his ultimate recovery. He was one of the rare prolific writers whose writings had been maintaining their original standard.

In his youth Mr. Locke was primarily interested in architecture and at the time of his death was a member of several architecture societies.

Mr. Locke's death will doubtless be followed by a recrudescence of interest in his works. They include: At the Gate of Samaria, The Demagogue and Lady Phayre, A Study in Shadows, Derelicts, Idols, White Dove, The Usurper, Where Love Is, The Morals of Marcus Ordeyne, The Beloved Vagabond, Septimus, Simon the Jester, The Glory of Clementine Wing, The Joyous Adventures of Aristide Pujol, Stella Maris, The Fortunate Youth, Haffery, Far Away Stories, The Red Planet, The Rough Road, The House of Baltaz, The Mountebank, The Tale of Triona, Moordius and Company, The Coming of Amos, The Golden Adventure of Mr. Paradyne, The Great Pandolfo, Stories Near and Far, The Old Bridge, The Kingdom of Theophilus, Joshua's Vision, Ancestor Jorico, Mr. Locke is also to be credited with a number of plays including: The Beloved Vagabond, and The Man from the Sea.

By the time the ukulele player in Paris reaches his 13th hour of continuous playing he must have a good idea of what they mean by the French demands.

### JUST TO THINK!

Several unique prizes will be given in the National Republican club golf tournament at the Winged Foot Golf Club, Mamronck, New York, May 27th. The main prize will be a registered Holstein bull calf. Other prizes include a prize pen of Rhode Island Reds, one cockerel and three hens; a registered wire-haired terrier pup; four gallons of maple syrup, and ten dozen fancy white eggs.

The National Republican golf team is usually defeated by the Democratic golfers in the annual match between the two and it is hoped that the Winged Foot Golf Club tournament will discover some new players.

If a Holstein bull, a pen of Rhode Island Reds, a wire-haired terrier, and four gallons of maple syrup can't call forth some good golfers it would seem convincing proof there are none in the ranks of the Republicans.

### D. A. R. MEMBERS RESIGN

One of the most unfortunate situations which could possibly arise in a great organization has arisen in that of the Daughters of the American Revolution. Because of the extreme position which the leaders insist on assuming in respect to certain public questions, some of the finest and best of their membership are forced out of the organization.

This has been continuing for some time, and yesterday a half of the chapter at Stanford University withdrew, and some of the others simply remained hoping that they could correct what they felt to be a seriously unfair and wrong position assumed by the national organization.

Under general terms the attitude which they allege the D. A. R. is taking, is that of the extreme reactionary. Those who are pronounced leaders for peace in our country have been noted by the D. A. R. organization in such a manner as to constitute what has been called a "blacklist." Among this number are such men as Dr. David Starr Jordan, Bishop W. F. Anderson, Sherwood Eddy, and others. The position which they have assumed against the President's attitude for peace has caused very considerable disaffection. We cannot believe that the leaders of this movement represent the real rank and file of the women who are members of it. There are many who love the traditions, who feel it a great honor to be able to belong to this organization, and who retain their places in it.

It is unfortunate that those who believe in reasonably progressive policies do not more determinedly assert themselves. We should like to see a plebiscite taken of the membership in respect to their various views. We cannot help believing that in spite of the attitude of the majority in the conventions the great majority of the membership would speak with a different voice.

In any case, it does seem as though an organization, the membership of which has such a wonderful background, could be conducted in such a manner as to retain the character of women who seem impelled to withdraw.

### Money For Highways Is Well Spent

Passadena Star-News

An investment that is thoroughly sound and beneficial is being made in the United States, and it is helping greatly to roll back the tide of depression which threatened after the stock slump of a few months ago. It is the building of highways. President Hoover urged the states of the Union to speed up their road building programs, and to increase the volume of highway construction. California was among the first states to pledge handsomely along this line. And California is leading all the states with the highest percentage of increase over the volume of road building during the corresponding period in 1929. This state is going 181 per cent ahead of the same period last year.

Thirty states have reported increased outlays to Secretary of State Lamont. Sixteen states announce that contracts have been awarded in the first quarter of 1930, 100 per cent, or more, in excess of the 1929 contracts.

Secretary Lamont has compiled figures for about 75 per cent of the country, showing that contracts awarded during the first three months of 1930 ran to more than \$114,000,000, as compared with less than \$51,000,000 for the same period last year.

These huge expenditures add greatly to payrolls, give employment to many men who otherwise would be idle and, furthermore, greatly benefit the country by adding to its vast systems of permanently paved highways.

President Hoover's plan to counteract depression by construction is a good one and is working handsomely.

### Jazz For the Nerves

New York Times

It has often been said that hard work alone never hurt anybody, and that it is the combination of hard work and worry which causes a nervous breakdown. On the contrary, Dr. R. G. Armour, the Canadian neurologist, believes that nervous disorders are often caused by hard work and plenty of rest, resulting in a life of deadly monotony.

In a recent lecture at Toronto, Dr. Armour stated that it is not the rush of modern life which is responsible for the increasing prevalence of nervous disorders in North America; it is the dull daily routine. Business men who spend a long day in their offices, return at night for a quiet evening at home and go to bed early to be ready for the next day are only preparing trouble for themselves. Such monotony will very likely incubate nervous disorders. Jazz music, lively parties, week-ends in town—all taken in moderation—provide a far more wholesome program.

Many of his "nervous" cases, the neurologist says, comes from homes where nothing ever happens. A perfectly blank existence is apparently more productive than chaotic homes where something is happening every minute. Teachers, who are supposed to be sober souls, never wanting a bit of fun, are prone to suffer from nervous breakdowns. The obvious moral for any worker is to drop his work when he feels himself going stale on the job. But instead of going home for a rest cure, let him plan a jazz party, a riotous evening of gaiety. As for the gladdy, tired-business-man shows, they are just what this doctor orders.

### Fridtjof Nansen

Oakland Tribune

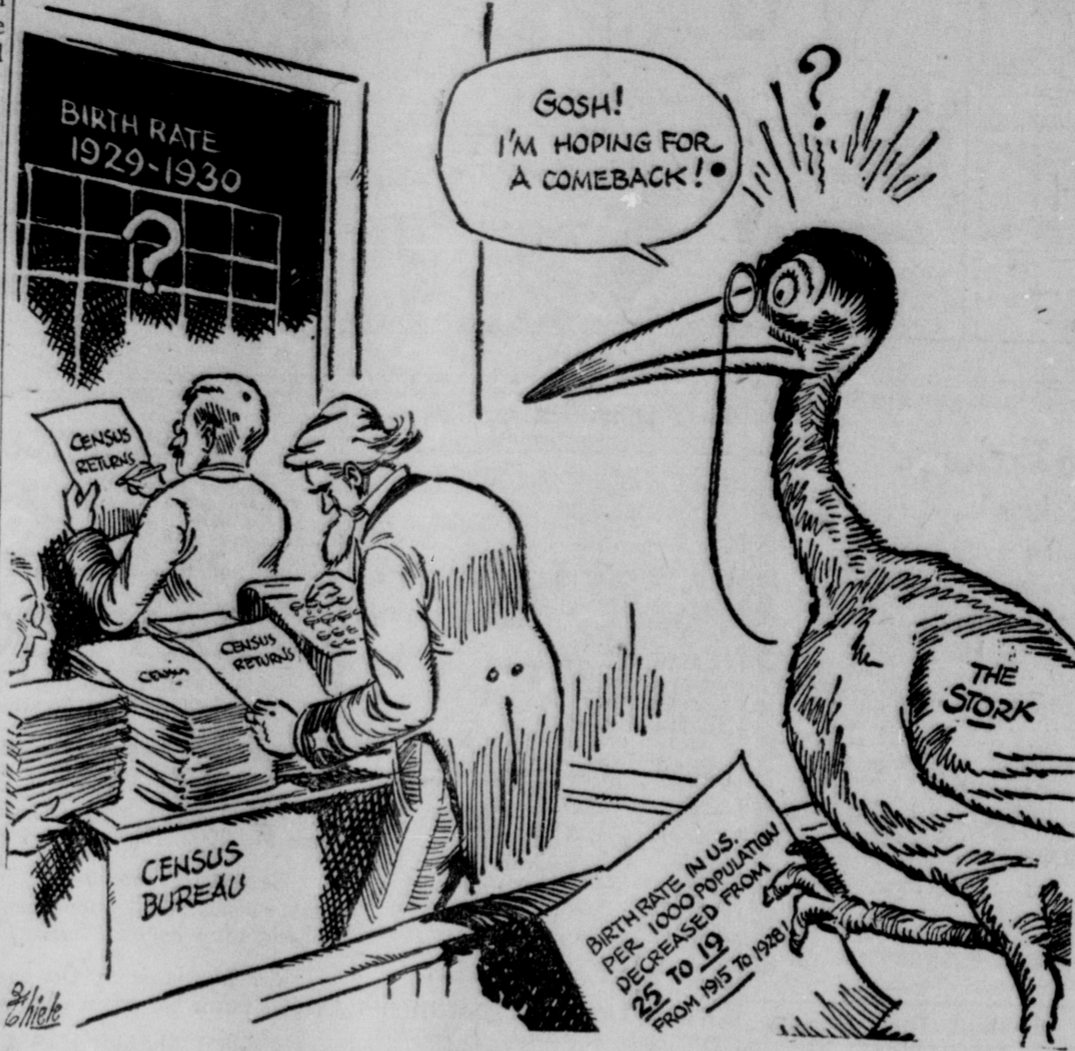

One of those who knew what it was to seek the North Pole while it still remained a mystery, and to make the adventure in the slower ways of ships and drifting floes, was Dr. Fridtjof Nansen. When he went North in the stout Fram, breaking the ice until at last ship and all were frozen in to ride the Arctic drift, he took with him a capable and stalwart crew, most of whom, in that expedition and in others have made independent reputations as explorers.

The "Farthest North" which Dr. Nansen wrote after that voyage combines the knowledge of scientist, observer, artist and graceful writer. It is a record of exploration and discovery and one of the daily life of men isolated in the Arctic wastes. Had he done no more than write this book the great Norwegian explorer would have made his name secure in fame.

But in many fields Dr. Nansen was active. He gave freely of his knowledge and experience to other explorers and, in the war years, turned his energies to the work of relief in way to make him a conspicuous figure before the world. When the Nobel Peace prize went to him in 1922 there was general agreement it was well-deserved.

With the passing of this brave man there departs a leading figure from the older story of the patient, arduous explorations into the North, a distinguished writer, scientist and humanitarian.

#### TOO LATE NOW

As a boy I gazed at the engineers  
As the trains came rumbling in,  
And listened, with keen enraptured ears,  
To the glorious jolting din.  
And I dreamed of traveling, fast and far,  
Over mountain and stream and plain  
As I sat, with my hand on the throttle bar,  
At the head of a passenger train.

Then later on, in a distant place,  
I stood on a ferry slip  
And wistfully watched a captain pace  
The bridge of a mighty ship.  
And, from that time forward, it seemed to me  
That the girth of the world to span  
In a vessel that scored the stormiest sea,  
Was the noblest labor of man.

The dreams of childhood very often dim,  
As we join in the stress and strife,  
And our muscles sag and our hearts grow grim  
In the wearisome grind of life.  
We turn to tasks through a trifling chance  
And follow them day by day,  
With only a passing backward glance  
As the swift years run away.

But now, when I hear over yonder hill,  
The shrieking of a passenger train,  
I wish I could follow my wandering will  
And live life over again  
And whenever a liner glides smoothly by  
I feel always a futile wish that I  
Were the man in the high command.

### "Glass Houses"

By WILLIAM TRUFANT FOSTER and  
WADDILL CATCHINGS

One phase of construction activity which deserves serious consideration is the replacement of obsolete figures of speech. Every day some reliable old metaphor loses its underpinning and topples to the ground.

For instance, "People who live in glass houses shouldn't throw stones." If any metaphor ever seemed designed to withstand the ravages of time, this one did. And what is it now? A line of meaningless words.

For what is there metaphorical about people living in glass houses, when people do live in them? Or will, as soon as the New York apartment houses, now being built entirely of glass, is completed.

So another serviceable figure of speech has collapsed. What is to take its place?

Shall we say, "People who live in wool houses shouldn't throw moths!"

No, that will not do. Just as we get used to it, the New England Council would discover in it an inspiration to boost the wool trade, and the next thing we knew, Boston would be all agog about the new kitted skyscraper being erected there. "Please excuse the click of needles."

No, this replacement of old proverbs by new is a discouraging business.

We can, however, suggest the replacement of a few economic proverbs by some more in accord with the facts.

For instance: "Don't interfere with the law of supply and demand, and everything will work out as well as is humanly possible." We offer, instead, "Interfere intelligently with the law of supply and demand, and everything will work out better than was ever considered humanly possible."

Again, there is that favorite proverb of the business forecasters: "What goes up must come down." "Every forward movement in business must be followed by an equal and opposite reaction."

We prefer this one: "What goes up need not come down, if concerted efforts are made to keep it up."

In any event, it is clear that business, during the past ten years, has consolidated its gains on many fronts. People don't have to live in glass houses, in order to see the progress going on all around them.

### Thoughts On Modern Life

By GLENN FRANK

#### OUR BIGGEST POLITICAL PROBLEM

When the American Constitution was drafted, its framers, I think it is not too far to say, failed utterly to foresee the complicated, technical, industrialized United States of today.

It was beyond their prophetic genius to realize that one day the actual seat of American government would shift from executive office and legislative chamber in Washington to factories, banks, stock exchanges, labor headquarters, laboratories, schools, newspaper offices and like centers of social power and social control throughout the United States.

And yet just this has happened. Today the real government of the American people, the power that can make or break the nation, the force that is determining the development and dictating the destiny of the American people, is operating through economic and occupational group-forms instead of through political forms.

In this fact lies, I think, the overshadowing political problem of contemporary America.

And yet, save for a few heartening exceptions, we are meeting this problem with two equally ineffective attitudes.

First, an obstinate conservatism that is struggling to invest Constitutional forms with a sanctity those who created them never intended.

Second, an obsolete liberalism which, in the presence of the new forces of a corporate and technical age, can think of nothing but to damn them as an invisible and reprehensible government that must be harassed and hamstrung.

My guess is that politics will become increasingly irrelevant, and our army of non-voters will grow, until we throw both our obsolete conservatism and our obsolete liberalism on the scrapheap and develop in their stead a political realism.

Our political forms must be made flexible enough to take in the new forces of this technical age as organic elements of the going concern of government.

We must effect readjustments that will fit our government to the technical civilization of today instead of the pastoral civilization for which it was designed.

It will be in meeting this challenge—if it is met—that the next great political movement in the United States will be born.

### OUR CHILDREN

By ANGELO PATRI

#### ONE VOICE

Don and Harry walked home from school together. Harry had a bright idea. "Let's throw in our books, nobody will see us, and go down to the park to see the big game. Come on, let's go."

"I'll have to go in and ask first," said Don. "Won't you have to ask your mother?"

"I won't let her see me and then I won't have to ask."

"Well, I have to ask. And I don't believe she'll let me go. I have some chores to do you know, and then I want to play catch a little while before dinner. Guess I can't go."

"If you think she'll say no, don't ask her. Ask your grandmother. Or your aunt. Won't one of them say yes?"

"What in the world has my grandmother or my aunt got to do with it? Boy, there's only one voice in our family. If Mom says no, it's no all the way round and if she says yes, nobody says no. What's the idea?"

"Gee, I work it better than that. If I think Ma will say no I look around for somebody that'll say yes, or something and then I do it and if Ma says anything I tell her Aunt Mame said I could, or Gram said I could, or I asked father and he didn't say anything. That's the way I get by."

"Well, I can't. I'll ask mother and if she says I can go it will be all right. If she says I can't that settles it."

It isn't a bad way to have one

voice in the family where the children are in question. Too many cooks spoil the child. A steady dependable diet is better. I know that the one voice is sometimes a sort of dictator but there are times when a dictator is needed in the family group. A dictator is better than a council each of which has a different idea of what is good for a child and what isn't. The mother dictator is rarely selfish. She is thinking of what is good for the child and at whatever cost to herself, she sees that he gets it. The wavering mind and the quavering voice plays ducks and drakes with the child's character. The one voice is best.

It isn't fair either, for the mother to say, "Wait and ask your father." A mother should be able to settle any question that a child who needs parental guidance and authority asks, on the spot. Father is not present enough of the time to allow dependence upon him in that way. He does not know the conditions and so when the questions are held over him he often makes a mistake that leads to discussion, argument and the weakening of father's position in the family.

Let there be one voice and that voice mother's until such time as the children are old enough to have a voice of their own. And of course no relative, no old family friend should lift his voice in the matter at any time. There is confusion in many voices.

#### FIRST OCEAN FLIGHT

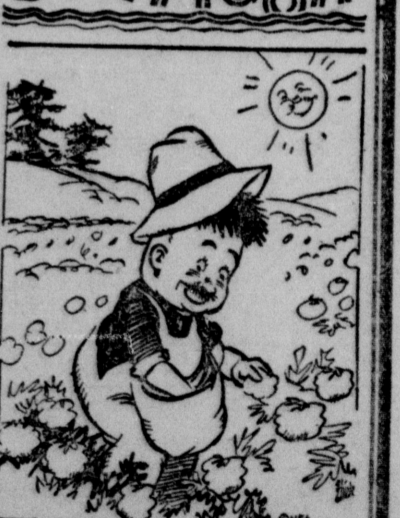

On May 16, 1919, the United States Navy seaplane, the NC-4, in company with two other similar planes, left Newfoundland for the Azores, to make the first attempt to span the ocean by air. The plane successfully achieved its object, being the first to make a trans-Atlantic flight.

The NC-4 reached Horta in 15 hours and 13 minutes, or an average speed of 78.4 knots per hour. On May 20 the plane proceeded to Point Delgada, and then, on May 27, flew to Lisbon, Portugal, 810 miles, making the trip in nine hours and 43 minutes. The total flying time for the 2472 miles from Newfoundland to Portugal was 26 hours and 51 minutes. The trip was extended to Plymouth, England, where the flight was terminated.

While the entire course of the NC-4 flight was patrolled by destroyers and dreadnaughts, the plane's achievements demonstrated the possibilities of trans-Atlantic crossings by air. The next month,

in fact, Captain John Alcock made the first non-stop trans-Atlantic flight when he flew his Vickers-Vimy bomber plane from St. Johns, N. F., to Clifton, Ireland, in 16 hours and 12 minutes.
